

ATTEMPT MADE TO ASSASSINATE FRENCH PREMIER

SENATE PASSES WATERWAY BILL

River and Harbor Measure Carries an Appropriation of \$33,000,000.

GOES TO CONFERENCE

Amendment Authorizes Survey of Ocean Route to Connect St. Lawrence and Great Lakes by Enlarging Welland Canal.

Washington, Feb. 19.—Without a record vote the senate passed the annual rivers and harbors bill, carrying appropriations of \$33,000,000 or \$6,000,000 more than the original house measures. The bill now goes to conference.

The measure had been before the senate for nearly a week and was attacked by both Republicans and Democrats who insisted that many of its provisions were unnecessary. Before the final vote the senate rejected a substitute by Senator King of Utah to appropriate \$5,000,000 to be expended by waterways commission. Another substitute by Senator Smoot, appropriating \$15,000,000, also was defeated.

St. Lawrence Survey Approved. After three hours' debate the senate adopted, 43 to 18, an amendment by Senator Leuport of Wisconsin, authorizing the International Joint commission of the United States and Canada to investigate the advisability of an ocean-going ship waterway to connect the St. Lawrence river and the Great Lakes by enlarging the Welland canal.

The senate also adopted an amendment by Senator Calder of New York authorizing a survey of a ship canal to connect the Great Lakes and the Hudson river.

As sent to conference, the bill provides for 75 new projects, five more than authorized in the house measure.

The house provisions appropriating \$3,000,000 for the purchase of the Chesapeake and Delaware canal was retained today by the senate, which also adopted the amendment reducing from \$2,500,000 to \$1,000,000 the appropriation for the improvement of the Delaware river.

Mississippi Appropriation Increased. On motion of Senator Lewis of Illinois, the senate increased the appropriation for work on the Mississippi river from the mouth of the Missouri to Minneapolis from \$250,000 to \$500,000. The senate also adopted an amendment by Senator Shepard of Texas, authorizing the expenditure of \$755,000 already authorized to complete the Galveston, Texas, sea wall.

Surveys authorized by amendments adopted included that of a waterway to connect Puget Sound and Grays Harbor, Washington.

ANARCHIST LEADERS DIFFER

Lenine and Trotsky at Odds Over Offer From Allies.

Stockholm, Feb. 19.—Serious differences of opinion have arisen between the Moscow soviet, headed by Premier Lenine, and the Petrograd soviet, headed by Leon Trotsky, over the Allied proposal for a conference on the Princes' islands, according to a dispatch from Helsingfors.

Lenine, it is said, wishes to accept the invitation for a conference on account of the economic situation of Russia, which is declared to be hopeless. Trotsky is declared to be of the opinion that the occupation of the Ukraine offers the possibility of food and fuel supplies for the soviet government.

TO SEEK WET REFERENDUM

Distillers to Attack the Prohibition Amendment in 14 States.

Cincinnati, Feb. 19.—Referendum vote will be sought in 14 states on the federal prohibition amendment, according to an announcement made by the National Association of Distillers and Wholesale Liquor Dealers here today. The states are: Arkansas, California, Colorado, Idaho, Maine, Michigan, Missouri, Nebraska, Nevada, New Mexico, Ohio, Oregon, Utah and Washington. Leading distillers state they believe that at least 13 of these 14 states will reject the amendment and thus defeat national prohibition.

MAYOR SUFFERS BREAKDOWN

Due to Exposure and Overwork During Seattle Strike.

Seattle, Wash., Feb. 19.—Mayor Ole Hanson is lying at his home suffering from a nervous breakdown, said by his secretary to be the result of exposure and strenuous work during the general strike here. A physician is in constant attendance.

The mayor may be confined to his bed for some time, according to a brief bulletin issued by his doctor.

WILLIAM E. BORAH

Declines Invitation to Dine at White House.

Senator Borah has declined President Wilson's invitation to dine at the White House and discuss the league of nations. He based his declination on two points: First—That he and the President are fundamentally at odds regarding any league of nations plan and, second, that he could not allow himself to be bound by a confidential discussion no part of which he could use later in argument of public discussion.

Fears Military Germ Lives.

London, Feb. 19.—The world is far from assured that the germs of the plague of militarism have been killed in the Teutonic soul, said the Times in commenting on the speech of Count von Brockdorff-Rantzau, German foreign minister to the national assembly at Weimar. "The speech," it adds, "is the latest example of the temper in which the Germans regard or attempt to regard the position in which they stand. He attributes the Allied victory to their economic and not to their military conduct."

Money to Kill Corn Pest.

Washington, Feb. 19.—Secretary Houston has asked Congress to appropriate \$500,000 to be used in combating the spread of the European corn borer. The pest, which made its appearance in Massachusetts, has spread over an area of 60 square miles near Schenectady, N. Y., and also a region in Connecticut. Secretary Houston said that the danger of spread of the insect with its consequent serious damage in regions of intensive corn culture fully justified the appropriation.

Marine Corps Commander Being Decorated With the Croix de Guerre on German Soil

France has gratefully acknowledged the part the American marines played in the final onslaught which overwhelmed the Hun. This photograph shows Major General John A. Lejeune, of the United States Marine Corps, commander of the Second Division, being decorated with the Croix de Guerre at Leutesdorf, Germany. Brigadier-General Wendell C. Neville, also of the Marine Corps, is pinning the medal on his breast.

Revolution Threatens to Break in Germany

(By United Press)

Weimar, Germany, Feb. 19.—The real revolution threatens to break out in Germany at any hour. This imminent upheaval is not political but economical, and it is being organized by the workmen themselves. For the past three days delegates from the workers' council of the Essen region have been serving ultimatums on the new German cabinet insisting upon socialism of industries, minimum wages higher than the present maximum, recognition of all workmen's councils and the abolition of capitalism. The workers program borders on communism, but they have declared against violent methods unless absolutely necessary.

McCumber Wants Allies to go After the Bolsheviks

(By United Press)

Washington, Feb. 19.—A resolution declaring that the United States in co-operation with the allies should send an army of sufficient force to Petrograd and Moscow and other points in Russia to defeat the Bolsheviks was introduced into the senate today by Senator McCumber, of North Dakota, as a substitute for a resolution by Senator Johnson, of California.

Spartacan Mobs Attack Prison

(By United Press)

Stockholm, Feb. 19.—Spartacan mobs in an attempt to free Carl Radek, the Russian bolshevik minister, attacked the famous Moabit prison in Berlin. Both attempts were repulsed by government troops.

Much Money Goes to Waste.

Whole shiploads of honey have been sent to Europe, and more is wanted. Few people realize that 250,000,000 pounds of honey are produced in the United States alone each year. Yet the department of agriculture says that the output ought to be much greater, and that millions of dollars' worth of sweets annually are going to waste in the fields for lack of bees to gather the nectar. When the consumer pays twice as much for a comb of honey as he did a few years ago he feels disposed to buy a stand of bees himself.

(By United Press)

Paris, Feb. 19.—Premier Clemenceau, chairman of the peace conference was slightly wounded by a shot fired at him from a revolver as he stepped into his motor car leaving his home at 8:30 this morning.

The assailant was arrested. It was learned that the assailant fired eight shots at the limousine as Clemenceau was seating himself. Two of the bullets penetrated the glass door, and one inflicted a flesh wound on the under side of the Premier's right arm just below the shoulder. He walked back into his home unassisted.

Cottin, the assailant, refused to make any statement. He is about 18 years old, a French civilian, and is said to live in Compeigne.

Clemenceau canceled an engagement with Colonel House, of the American delegation, set for 10 o'clock, but stated the wound was very slight.

Clemenceau as chairman of the peace conference is the biggest figure in Europe at the present time. He is seventy years old and is popularly known as the Tiger of France.

Poindexter Attacks League of Nations

By L. C. MARTIN

(United Press Staff Correspondent.)

Washington, Feb. 19.—Senator Poindexter, of Washington, today attacked the League of Nations constitution. A frightful compact, a fatal covenant, which will steal away American national sovereignty and make this nation a party of a great international soviet, was the inscription given by Poindexter.

TWO HELD IN INQUIRY

Minneapolis Men Arrested Following Closing of 13 State Banks.

Accused of Loading Institutions Which They Controlled With \$500,000 in Worthless Paper.

Minneapolis, Feb. 19.—Charles F. Wyant, president of the thirteen banks of Minnesota closed by the state superintendent of banks, who was arrested in connection with accusations that he had permitted the sale of alleged worthless paper to the banks aggregating more than half a million dollars, made a statement to County Attorney Nash, in which he admitted the transaction, and was released from custody to do what he can to help reimburse the banks for their losses.

Minneapolis, Feb. 19.—Following the closing of a chain of 13 small state banks by order of F. E. Pearson, state superintendent of banks, William H. Schafer, Minneapolis promoter, and Charles F. Wyant, president of the Mortgage Securities company, were arrested and held in the city jail. County Attorney William M. Nash said both men would be charged with first degree grand larceny, growing out of the alleged "loading" of the closed banks with doubtful or worthless paper said to aggregate from \$500,000 to \$700,000.

Banks closed by state action are: St. Louis Park State bank, Waconia State bank, State Bank of New Prairie, State Bank of Chanhasset, Peoples State bank of St. Bonifacius, State Bank of Augusta, Merchants and Farmers State bank of Tower, Farmers State bank of Skyberg, Marine Mills State bank, Farmers State bank of Cologne, Farmers State bank of Frontenac, Hamel State bank, Farmers State bank of Long Siding.

It is possible that depositors will lose nothing through the closing, the superintendent said. In the cases of many of the suspended banks, he said, it is possible the directors and stockholders may raise sufficient funds to take up the doubtful paper and permit early reopening of the institutions.

Superintendent Pearson said that the mortgage company was controlled by Schafer, and that each of the closed banks, within the last 90 days, had purchased from the company much commercial paper of little or no value. "Each of the banks," said Mr. Pearson's statement, "recently purchased through the Mortgage Security company a large amount of paper made by persons and corporations of little or no financial responsibility, and through these transactions the capital of each bank became impaired to such an extent as to make it necessary to close it."

Balkan Confederation Demands Recognition

BY HENRY WOOD,

(United Press Staff Correspondent.)

Paris, Feb. 19.—The Balkan confederation will demand permanent representation on the executive council of the league of nations along with the five great powers it is learned from an authoritative source. This group comprising Greece, Serbia, Rumania, and Checho-Slovakia was organized by Premier Venizelos for defensive purposes, a common Balkan policy and especially the enforcement of peace in southeastern Europe. It is now known that Premier Venizelos during the league of nations discussion urged adoption of a clause permitting defensive alliances. Although the commission refused to insert such a clause in the draft it did not prohibit such alliances and merely provided for the registration of such treaties.

MORE CLAIMS APPEAR

Serbs, Slovenes and Croats Present Demands.

Italian Delegates Refuse to Arbitrate Territorial Dispute With Jugo-Slav States.

Paris, Feb. 19.—The Italian delegation to the peace conference, according to an official note, has informed the secretary of the conference that it cannot accept the proposal for the arbitration of Italian and Jugo-Slav claims in Dalmatia as urged by the Jugo-Slavs.

The territorial claims of the Serbs, Slovenes and Croats were submitted to the Supreme Council at its meeting by M. Vesulich, M. Trumbitch and M. Volger. According to an official announcement, it was decided to submit the question of the frontier claimed, except those in which Italy is directly interested, to the commission already charged with the question of the frontiers of the Banat.

MEANS FEDERAL OWNERSHIP

Daniel Willard Opposes Government Holding Railways.

Washington, Feb. 19.—Daniel Willard, president of the Baltimore & Ohio railroad, before the senate interstate commerce committee opposed government ownership, extension of the present control until 1924 and the plan of co-operative operation advanced by the four brotherhoods. He said he believed if the five-year extension plan were carried out, government ownership would be inevitable.

American Armys Leader Saying Good-bye After Visiting Canadian Corps Commander

This photograph, just received in this country, shows General Pershing saying "Good-bye and Good Luck" to General Currie, Canadian corps commander, at the end of a visit the American doughboys' leader had made to the headquarters of General Currie.

SENATOR VARDAMAN

Calls League of Nations Plan Unconstitutional.

Senator Vardaman of Mississippi, Democrat, declared the league of nations was unconstitutional and criticized President Wilson for asking Congress to remain silent on the subject until he returned to Washington.

MAJOR EDWARDS CONFESSES

Admits Forging Pay Vouchers for Minnesota Guardsmen.

St. Paul, Feb. 19.—John W. Edwards, former major and chief accountant and paymaster of the state's military department, in a confession made to R. D. O'Brien, county attorney of Ramsey county, in the presence of Adjt. Gen. W. F. Rhinow, State Auditor J. A. O. Preus, Mat Desmond, assistant state auditor, and Bert Kingsley, chairman of the special committee of the house committee on military affairs, told of the forgery of 15 vouchers for extra pay for services of Minnesota guardsmen on the Mexican border. He admitted these vouchers, totaling \$2,170, were cashed by him.

LEADS WAR STAMP SALES

Nebraska First, Ohio Second and South Dakota Third.

Washington, Feb. 19.—Of all the Northwestern states, South Dakota leads in the sale of war saving and thrift stamps. It is the third among the states of the Union, Nebraska being first and Ohio second. The total of the sales for South Dakota were \$9,911,807.81.

Minnesota is in the nineteenth place in total sales amounting to \$27,390,858.62 with a per capita of \$11.75.

North Dakota is thirty-fifth among the states on total sales with a total of \$5,758,515.

GERMANY MUST REDUCE FORCES

New Armistice Terms Are Essentially Those of Preliminary Peace Treaty.

WAR MATERIAL HELD

Peace Conference Marking Time Until Wilson's Return, Though Work on Various Problems Continues During Absence.

Paris, Feb. 19.—A Havas report says the special commission of the supreme council charged with drafting the terms of a definite armistice, which will hold good until the peace preliminaries are signed, has almost completed its task and it is possible that Marshal Foch will be able to notify the Germans in two or three days of the military and naval terms, which will be essentially those of the preliminary peace treaty.

It is understood that the terms will include clauses by which Germany will be allowed to maintain only 250,000 men under arms to keep order.

All war material beyond what is necessary to equip these troops would, according to report, be placed under control of the Allies, who will also hold Germany's munition factories.

Labor Legislation.

Equal representation for governments on the one hand and employers and labor on the other has been decided upon by the commission on international labor legislation in adopting plans for the meetings of the proposed annual international labor conference. The plan adopted was that presented by British delegates with an amendment proposed by the Belgian delegation. Samuel Gompers, head of the American Federation of Labor, presided over the meeting.

Conference Marking Time.

The peace conference is expected figuratively to mark time until President Wilson returns from his brief furlough in the United States. Work on the details of the various problems will continue during the president's absence, but it is understood that no momentous decisions will be made until he again takes his seat at the peace table, probably the middle of next month.

Is Military Treaty.

London, Feb. 19.—The terms of the new military treaty imposed on Germany in lieu of the monthly armistice and as a part of the final peace conditions, according to the Daily Mail's correspondent, include, in addition to the destruction of the fortifications at Halgoland and the Kiel canal and the opening of the canal to traffic, the immediate surrender of certain warships which have not yet been given up as required, and the conversion of the status of the German fleet in the Scapa Flow from that of internment to surrender.

The correspondent adds these surrendered ships eventually will be destroyed, the idea of dividing them among the Allies having been abandoned.

NEW MONTENEGRIN CABINET

Former Foreign Minister Plamenatz Becomes Premier.

Cettinje, Montenegro, Feb. 19.—King Nicholas having accepted the resignation of the cabinet headed by Eugene Popovitch, a new cabinet has been formed under the premiership of J. S. Plamenatz, former foreign minister, and a former president of the Montenegrin chamber of deputies.

In addition to being premier, he also holds the portfolio of foreign affairs and internal affairs.

FAVORS SHORT TERM NOTES

House Committee Is Opposed to Further Bond Issues.

Washington, Feb. 19.—The house ways and means committee tentatively decided to authorize no more bond issues, members said, but to authorize issuance of short term notes to raise money that will be needed to run the government.

If the tentative short term plan goes through, committee members said, there will be no further Liberty Loan campaigns.

PARIS PRESS IS SATISFIED

Papers Rejoice Over Forcing Truce Terms on Germany.

Paris, Feb. 19.—The Paris press expresses satisfaction over the extension of the armistice with Germany under the conditions imposed.

"Once more the Germans have bowed to the firmly expressed will of the Allies," says the Matin. "Germany needed a pointed warning. She now has only the policy left her—to pay and seek oblivion."

MYSTERIOUS PAINS AND ACHES

Make Life Hard to Bear For Many
Brainerd Women

Too many women mistake their pains and aches for troubles peculiar to the sex. More often disordered kidneys are causing the aching back, dizzy spells, headaches and irregular urination. Kidney weakness becomes dangerous if neglected. Use a time-tried kidney remedy—Doan's Kidney Pills. Hosts of people testify to their merit. Read a Brainerd case:

Mrs. A. Noakes, 313 S. Ninth St., Brainerd, says: "I had been feeling miserable and sick all over for about a year and didn't know what was wrong with me until my kidneys began to show they were disordered. My feet would swell when I went to take off my shoes in the evening. I always had a tired and depressed feeling. I tried different remedies with no relief. I got Doan's Kidney Pills at the Skauge Drug Co. and began using them. After I had taken four boxes, I was cured."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Noakes had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Don't Fool Yourself

A man suffering from backache, rheumatic pains, stiff joints or sore muscles may laugh and say these symptoms of kidney trouble "don't amount to anything." It is folly to ignore Nature's warnings. Foley Kidney Pills give quick relief in kidney or bladder troubles and "it is better to be safe than sorry." H. P. Dunn, druggist. mwf

TO FURNISH NEEDED DATA

Division in Department of Labor That
Will Encourage Development of
Building Announced.

Creation of a new division in the department of labor, to interest the nation in public works and private construction, was announced by Secretary of Labor William B. Wilson.

It will gather and distribute information to enable private industries to make the transition from a war to a peace basis without serious interruption, "obviating uncertainty or hesitation for want of the practical data upon which business judgment must depend," the official announcement says.

Louis F. Post of Chicago, assistant secretary of labor, in a statement asserting that the government does not look forward to any unemployment crisis and that there is no reason for alarm over the future, urged a revival of building to tide over the period of industrial reconstruction.

"Many municipalities throughout the country," Mr. Post added, "and many states as well have during the war either abandoned or suspended large public improvements. The federal government itself has practically abandoned its building program for the last two years."

"This accumulation of work should be undertaken at once as a means of providing buffer employment to carry us beyond the transition period and take up such unemployment slack as may result."

ORGANIZED LABOR SEEN
AS FOE OF BOLSHEVISM.

"Organized American labor is the one and only great protection against bolshevism in the United States," said Attorney Francis J. Heney in his arguments for an increase in wages and betterment of working conditions of stockyards employees before Federal Judge Alschuler at Chicago, who as federal arbitrator has been asked to increase the wages he fixed at a hearing early last year.

"Organized labor stands for securing improved conditions of working and living for the masses through lawful and peaceful means. Millions are driven by despair to seek these conditions by force and violence in Russia and elsewhere."

International Labor Court.

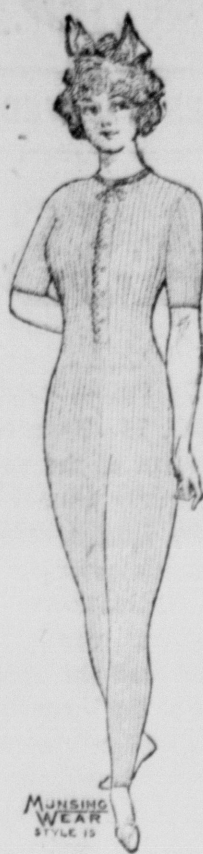

The British war cabinet is considering a proposal which may have an important bearing on future labor questions throughout the world, according to the London Express.

The proposal is to ask the peace conference, at one of its earliest sessions, to appoint a commission to inquire into the question of an international adjustment of conditions of employment and to submit plans for a permanent international court and organization to secure joint action in such matters.

"It is certain," says the newspaper, that the suggestion will be adopted, and it is also certain it will result in an organization, as part of an active league of nations, to prepare the way for international regulation of conditions of employment, which would be a death-blow to "sweating."

Return of the Craftsman.

The factory system nearly, but not quite, killed the craftsman in this country, where at one time he was second to none. Machine-made furniture, pottery, glassware and fabrics, viliy designed and cheaply produced in great quantities, both ruined the workman and debauched the public taste. The problem is now to combine the factory system with individual craftsmanship and good design. It is already in process of being solved; and we would say that upon its solution incidentally depends the composure of that labor unrest of which we hear so much. Give a man work he likes and a fair wage, and he asks nothing better. Force him to become a more

The Best Foundation for Stylish Cloths

No outer garment, however well cut or tailored, can fit over illfitting under-garments. A Munsing Union Suit, because of the perfect way in which it fits and covers the figure, is the ideal underwear and is preferred every by "women who know."

The fact that we sell more and more Munsingwear union suits every year is significant. There must be a reason. In truth, there are several. In addition to the perfect way in which it fits, Munsingwear is unusually fine in quality, remarkably durable, and surprising in its ability to stand trip after trip to the laundry without losing its shapeliness, perfection of fit or comfort.

nerve of a machine, and he will sooner or later revolt.—London Morning Post.

New Organization Formed.

More than 100 delegates drawn from all parts of western America met at Salt Lake City recently and organized the Federation of Shop Crafts of Railroad Employees.

The convention was in session four days. Officers were elected as follows: George A. Murphy, Cheyenne, Wyo., president; Percy M. Beach, Cheyenne, first vice president; O. G. Mitchell, Los Angeles, Cal., second vice president; James D. Christie, Omaha, Neb., third vice president; B. M. Hurst, Omaha, fourth vice president; Anthony Johnson, Seattle, Wash., secretary-treasurer.

It was decided to hold the next convention in Salt Lake City in 1920.

Want Children Back in School.

"Go back to school," was the New Year's message sent by the children's bureau to the boys and girls of America who entered shops and factories to do their bit during the war.

"The future national army of peace is the school," says Uncle Sam, "reads the message. 'Every boy and girl should stay in school and train their minds and their hands in order that they may carry on well the work of the future. In school you will not only prepare yourselves for better jobs and higher wages later, but you will contribute to the future strength of the nation.'"

IDLE RICH BECOMING FEWER

Sons of Men Who Have Amassed
Wealth Are Now Trained to
Succeed Their Fathers.

It used to be said that it was only three generations from shirt sleeves to shirt sleeves. This meant that the man who worked hard and built up his own fortune by taking off his coat and "digging in" generally had a son who spent all his money in idleness and riotous living, and his son's son had to take off his coat and, like his hardworking grandfather, go to work to make his own fortune, a writer in the American Boy observes. But things are different in these days. The sons of rich men are trained to care for money, trained in their fathers' business so that should their fathers die they may be able to step in and continue the work, aided by competent assistants. Other young men, when they get through college, begin to work their way up so that they will know all the ropes of their fathers' business. Many a young man who is heir to millions has worked side by side with sons of poor laboring men, and worked quite as hard and for the same wages.

The juniors in American business today are making a splendid showing. Never in the history of the country has there been so great a number of able young men, sons of millionaires, who have worked and are now working hard—much harder than the average young chap who has quit school and gone to work to support himself.

BANK BANDITS GET \$10,500

Six Armed Men Hold Up Institution
at Detroit, Mich.

Detroit, Mich., Feb. 19.—Six armed bandits entered the East Side branch of the First State bank of Detroit, held up the cashier, clerks and several patrons and escaped with a sum estimated by bank officials at \$10,500. The bandits escaped in an automobile.

The robbery took place on a busy corner in plain view of scores of pedestrians on the sidewalk.

How to Keep Well

"Keep the bowels open" is one rule of health recommended by all schools of medicine. Foley Cathartic Tablets cleanse the bowels, sweeten the stomach and benefit the liver. For indigestion, biliousness, bad breath, bloating, gas or constipation, no remedy is more highly recommended. Fine for stout persons. H. P. Dunn, druggist. mwf

HARDWARE

For the Farm and Home

Buying right goods means as much as paying the right prices

It is an invariable rule with us to make sure that both goods and prices are right. By centralizing our buying with thousands of other merchants we have attained a position where we are able to guarantee the quality of articles sold by us and the prices are the lowest it is possible to make. We make a specialty of

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts if Back hurts or Bladder bothers—Meat forms uric acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's never any sickness or pain after taking them. Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists.

WOMAN'S REALM

"NEW ERA MOVEMENT" PRESBYTERIAN CHURCH

Rapidly Shaping Itself for Effective Action in This Local Presbytery of the State

GROUP SYSTEM MEMBERSHIP

War has Caused a Tremendous Demand upon the Different Benevolent Agencies of Church

The New Era Movement of the Presbyterian church is rapidly shaping itself for effective action in this presbytery. Every church of this denomination is being organized by a group of six ministers acting as leaders in the churches.

The individual churches are being organized into the group system of membership and local people are serving as majors or group leaders. A meeting was held at Fergus Falls on Monday evening attended by the various presbyterian group leaders and a report received from all the field. Every church was reported as favoring the new system and all were willing to assume the extra obligations which will be their privilege to bear for the new church year beginning in March.

The war has caused tremendous demands upon the different benevolent agencies of the church, and the boards are laboring to the utmost to meet the new responsibility. The buildings in the various missions which were destroyed through the war the higher cost of living and supplies, the demand for greater forces of men have all had a marked effect upon the treasures of the church.

The great purpose of the New Era is so to quicken the spiritual life of the members of the churches that they will feel the need of evangelization and the humanitarian need of bearing the burden of the less fortunate. Rev. F. B. Stevenson and Rev. W. J. Lowrie were the members in attendance from this part of the Presbytery.

NEIGHBORHOOD MEETINGS

Presbyterian Church Gatherings at Homes of Mrs. Albert Erickson, J. A. McKay, Walter Wood

This evening at the home of Mrs. Albert Erickson South Thirteenth St. there will be held a religious service conducted by Rev. F. B. Stevenson, of Crosby. Rev. W. J. Lowrie will have charge and Mr. Stevenson will give a talk on some gospel theme.

Thursday evening the service will be held at the home of J. A. McKay and will be in the nature of the regular prayer meeting of the church. Rev. Stevenson will have charge of the program at this service also.

On Friday night there will be a cottage prayer meeting at the home of Walter Wood, 1420 Oak street. The time for all these special week meetings will be at 7:45. The neighbors in the vicinity of these homes are given special invitation to be present and it is hoped that a large number will avail themselves of this opportunity for neighborhood service. All are invited.

"As You Like It" Club

The "As You Like It" club held a dancing party on Monday evening in K. C. hall. Music was furnished by Miss Fern Hitt, Wm. Tibbets and Walter Frampton. Frappe was dispensed at a booth by the Misses Marguerite Carmichael and Marvyn Robinson.

Young Peoples Society

The Young Peoples society of the Norwegian-Danish Lutheran church will meet in the church parlors on Thursday afternoon February 20th. Misses Ida and Eva Peterson will entertain.

Entertains at Cards

Mrs. Fred Moerke entertained at cards Tuesday evening.

Prospects of Palestine

Palestine has never had a well-defined boundary except the sea on its west, but it is understood to be about 10,000 miles in extent. Much of this area is too dry and rocky for tillage; large parts are too dry even for cattle or sheep.

A Woman's Recommendation

Mrs. D. T. Tryon, R. F. D. 1, Franklin Ave., Otsego, O., writes: "I realized so great a benefit from the use of one box that I feel safe in recommending Foley Kidney Pills to any kidney sufferers." They relieve backache, sore muscles, stiff joints, rheumatic pains and bladder ailments. H. P. Dunn, druggist, mwf

CARD PARTY AND LUNCHEON

Prizes Worth While Offered at the Entertainment at K. C. Hall on Thursday Evening

Prizes worth while will be offered at the card party and luncheon at K. C. hall on Thursday evening, Feb. 20.

The committee makes this statement:

"The American boys got over the top in France. We want to find out how many of the mothers of the boys can get over the top and win five pounds of coffee donated by the Brainerd Grocery Co.

How many of the dads can do what their sons did, bring home the bacon and win a home cured ham donated by the Schaefer meat market.

And which of the young ladies can win a nice packet put up by Fritz and donated by J. W. Koop.

And finally a cash prize donated by Con O'Brien for the boys.

Oh yes, Peter Oberst said he liked to fit the ladies with a pair of house slippers. Lots of fun, a good time and a luncheon. Don't forget Thursday evening at the Knights of Columbus hall."

Good Roads Projected

There are 79 graveled hard roads projected in the Babcock plan of state highways. Those particularly interesting to this locality are the following:

From St. Cloud through Royalton and Little Falls to Brainerd.

From Little Falls through Sauk Centre, Glenwood, Starbuck, Morris and Graceville to Brown's Valley.

You Know, But Sometimes Forget

Everybody knows an imitation is never so good as the genuine article. Foley's Honey and Tar stands at the top of the list of family remedies for colds, croup, whooping cough, bronchial and gripe coughs. W. L. Anglin, Antioch, La., writes: "I have used Foley's Honey and Tar 15 years. It is the best." H. P. Dunn, druggist, mwf

At the Best Tomorrow

Appearing for the first time in motion-pictures in many months, George M. Cohan, the famous author, composer and theatrical manager is to be seen in a delightful pictureization of his own Broadway success, "Hit-the-Trail Holiday," and Artercraft picture, at the Best theatre tomorrow. To all who have seen Billy Sunday, the famous Evangelist, in action it is quite apparent, and no secret is made of the fact, that this is a "take-off" of the famous baseball revivalist, and that it proved an excellent re-introduction to motion-picture audiences for Mr. Cohan was evidenced by the laughter and applause that is accorded to it by all audiences.

At the Best Today

In her new Paramount photoplay, "The Vamp," dainty Enid Bennett has one of the best roles she ever has essayed on the screen. How she won her husband (in the reel story, not in real life) is excellently told in this great photoplay produced by Thomas H. Ince, which will be displayed at the Best theatre today.

Surprise Party

Mr. and Mrs. Becker, 908 6th Ave. Northeast, were pleasantly surprised by their friends on Tuesday evening. The evening was spent in music and a delicious lunch was served at 11:30. Those present were: Mr. and Mrs. S. H. Wooden, Mr. and Mrs. B. Kelly, Mr. and Mrs. A. Shanks, Mr. and Mrs. A. H. Whitted, Mr. and Mrs. Shepherd, Mr. and Mrs. Stanley, Mr. and Mrs. Arthur T. Godton, and Mr. and Mrs. Meyer.

St. Valentine Party

Miss Norma Hagberg entertained at a Valentine party on Friday evening. Music was enjoyed and games were played, the prizes being won by Ione Rowley and Effie McCloskey. Dainty refreshments were served, covers being laid for nine.

LIVE FOR WORLD TO COME

Inhabitants of Monasteries on Mount Athos Take No Thought of Mundane Things.

The long peninsula tapering southward from the busy city of Saloniki ends in three irregular prongs like a misused trident of Neptune. On the end of the easternmost of these prongs, almost surrounded by the sea, stands the Holy mountain, or Mount Athos. It is given to men whose thoughts and doings are all directed with a sole thought of the world to come, so that the war among which convulsed this earth hardly caused a ripple in their quiet existence. The slopes of Mount Athos are covered with monasteries, large and small.

It is a little world in itself, this bit of ancient Greece. It lives to a quiet ordered tempo in an atmosphere where noise and strife are almost unknown, where all the little doings of the day move to a thousand-year-old ritual. There are men here who have not wandered a mile from their cloister in twenty years, willing prisoners of their own convictions. It is a place of kindly, dreamy life, free from heartburns and jealousies, where each man is the equal of his fellow, despite the castles and ranks of the order—equal to a common infinite littleness before the majesty of divine omnipotence and eternity.

No woman is permitted to visit the sacred ground of the mountain, not that the order looks down on woman, but rather in tribute to her power to draw the thoughts of men from the eternal things. Despite the prohibition, however, there are rumors of women disguised who fled to Athos and found sanctuary there in the time of the Greek revolt and the war with the Turks. It is whispered, too, that the daughter of an English admiral accompanied her father on an official visit in the uniform of a midshipman.

SAN-TOX Scalp Wonder

San-Tox Scalp Wonder is what its name implies—the most wonderful scalp and dandruff remedy made. Will not injure the hair nor interfere with its growth, but on the contrary will greatly aid it by keeping the scalp clean and healthy. "Wonder" is the only word that can describe it.

Public Is Warned Against Taking Substitutes For Nuxated Iron

Physicians Below Say That Ordinary Metallic Iron Preparations Cannot Possibly Give The Same STRENGTH, POWER AND ENDURANCE As Organic Iron—Nuxated Iron

United States Judge Atkinson Gives Opinion

Careful investigation by physicians among druggists and patients has revealed the fact that there are thousands of people taking iron who do not distinguish between organic iron and metallic iron, and that such persons often fail to obtain the vital energy, strength and endurance which they seek, simply because they have taken the wrong form of iron.

Therefore, physicians mentioned below, advise those who feel the need of a strength and blood builder to go to their family doctors and obtain a prescription calling for organic iron—Nuxated Iron—and present this to their druggist so that there may be no question about obtaining the proper article. But if they do not wish to go to the trouble of getting a prescription for Nuxated Iron, then be sure to look on the label and see that the words NUXATED IRON are printed thereon—not Nux, and iron nor any other form of iron, but Nuxated Iron.

The remarkable results produced by Nuxated Iron and its widespread sale (it being estimated that over three million people annually are today using it), has led to the offering of numerous substitutes, and these physicians say that both officials and doctors everywhere should caution the public against accepting substitutes in medicines and they especially warn against accepting substitutes for Nuxated Iron, which, instead of being

Judge G. W. Atkinson

United States Judge G. W. Atkinson, of the Court of Claims, Washington, D. C., says: "It is without hesitation that I recommend Nuxated Iron to persons who in the stress of physical or mental labors have permitted the system to become debilitated, the body exhausted and the nerves run down. It has restored my appetite and my vitality. I feel that I have dropped off the burden of months of toil in the few weeks that I have been following the very simple directions for the use of Nuxated Iron."

organic iron may be nothing more than a metallic iron compound which may in some cases produce more harm than good. The widespread publication of the above information, has been suggested by Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, Dr. Ferdinand King, New York Physician and Medical Author and others, so that the public may be informed on this subject and protected from the use of metallic iron under the delusion that it is Nuxated Iron or at least something as good as Nuxated Iron.

It is surprising how many people suffer from iron deficiency and do not know it. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength and see how much you have gained.

Manufacturers' Note: Nuxated Iron, which is prescribed and recommended above by physicians, is not a secret remedy because it is well known to druggists. Unlike the older, inorganic iron products it is easily assimilated and does not irritate the stomach. The manufacturers guarantee successful and entirely satisfactory results, and refund your money if you do not find it good druggist.

For sale in this city by H. P. Dunn, Druggist

Little French Orphan, Who Saw Service at Front, Adopted By Fighting American Writer

"Amerique, ett is ver-ry fine, California bettaire," is the opinion of Marcel Dupuy. He may be a little mixed in his geography but his foster father, Captain Peter B. Kyne, well known as a magazine writer, isn't worrying about that. Marcel's mother died when he was a baby, his father was killed at Verdun, he made his way to the front and attached him-

self to the Seventy-ninth French infantry, then became mascot of the 143rd Field Artillery of California's "Grizzly" Division. Captain Kyne was an officer in the 143rd. When the Americans started home Marcel was a stowaway on the transport and Captain Kyne and his wife have adopted him. They are seen here in the captain's home in Berkeley, Cal.

Where Cultivation Counts.

Most of us find it too much trouble to really cultivate ourselves. We cultivate people whose acquaintance we think will make for our promotion and advancement. We cultivate those whom we think are powerful. We cultivate the rich, the talented, the beautiful outside of ourselves, without realizing that real power, real distinction, comes from within. If we would give as much time and attention to making the best of ourselves as we give to those non-essential things which hamper our progress we should all reach the situation we admire in others. For no man or woman ever receives the best of life as a gift—Exchange.

No Royal Road to Knowledge.

Knowledge is possible to all who really want it. Short cuts always reduce to ridicule. Force equivalents always begot rebellion and bloodshed. There is no royal road to the well-stored mind today any more than there was in the days of Pharaoh. Not crowns of gold and precious gems, but diadems of sparkling, penetrating intelligence proclaim the king. The fitness that is born from within, that grows with every test, that makes a man conscious of his power conditions life. When his head is clear, and his life is clean he finds his proper place among men. This raises him above the masses. It's your privilege if you will work for it.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

JUSTICE IS WATCHWORD

That "Justice" is the watchword of the American people is gloriously demonstrated in their championship of the oppressed peoples of the Ottoman Empire. Here are statesmen, artists, publishers and business men as well as clergymen of every religious denomination, Gentile and Jew combining in one supreme humanitarian effort, that of reclaiming the subject races of the Near East from the cruel yoke of the Turk.

In this cause the Sunday Schools of America have undertaken to raise \$2,000,000 of the \$30,000,000 goal set for Armenian and Syrian Relief.

Sunday-school workers representing eleven leading denominations, the International Sunday School Association, mobilized in New York on October 7th for the two-million dollar campaign in the Sunday schools of North America.

Dr. George T. Webb, Secretary of the Sunday School Council of Evangelical Denominations and Superintendent of Religious Education for the Baptist Union of Western Canada, has been granted leave of absence from important work in Canada to serve as Executive Secretary for the entire campaign.

SIR WILFRED LAURIER

Not alone Canada, but all America mourns the loss of that gallant Canadian Sir Wilfred Laurier for many years a leading statesman of the dominion. He did much for the development of Canada, its industries, its resources. He espoused the cause of reciprocity with the United States and although defeated continued to cement friendship between Canada and the United States.

DYES FROM MOOR AND HILL

Plants in Scottish Highlands and Ireland Used to Produce Vast Variety of Tints.

We think of the preparation of color tints as having been essentially a German industry, though in reality the first discovery in that line was made by an English scientist, when in 1856 Sir W. H. Perkins introduced a beautiful mauve tint. Further back still English and Irish dyes depended for tones of yellow on the brown or genesta plant, the whin in Scotland, a plant of the gorse family.

Woad, too, was another valuable ally of the dyer. Fermented woad holds about two per cent of indigo and was used to obtain that color. Woad-dyed cloth was dipped into a brown liquor in order to obtain a rich green. So that three colors with a multitude of shades were possible at once. In the Scottish highlands lichens are still collected in order to get purples, reds, brown and yellows so constantly needed in dyeing the clan and national tartans. In this connection Pliny tells us that the navigators came from Tyre and Sidon to the sea-cliffs of Ireland in order to obtain certain "mosses," or lichens, for use in compounding the renowned imperial purples and Tyrian reds of their land. Walnut, dyers' green wood, barberry, yellow bedstraw, buckthorn, sea buckthorn, and corn marigold are among the plants of the Irish countryside which have been used as dye-stuffs by past generations.

When Traveling.

In preparing a lunch for a journey, bake the bread in empty baking powder cans. After slicing and spreading, replace it in the cans, put on the covers, and the bread will be as fresh at the end of the trip, though it may be several days, as it was when first baked.

Says it is the Best in the World

Are you looking for a safe, reliable remedy for coughs, colds, croup and whooping cough? A. H. McDanel, Box 51, Lindsie, W. Va., writes: "I am glad to tell you that Foley's Honey and Tar is the best medicine in this world. I had a severe cough. Someone recommended it and before I used half a bottle I was better. H. P. Dunn, druggist."

STANDING ARMY OF 175,000 MEN

House Eliminates Senate Provision for Military Force of 540,000 Regulars.

TWO BILLS ARE PASSED

Congressmen Declare Senate Measure Does Not Affect Present War-time Force Under Selective Service System.

Washington, Feb. 19.—Legislation providing for a temporary military establishment of about 540,000 officers and men during the fiscal year, beginning next July 1, was eliminated from the annual army appropriation bill in the house, after passage of the senate bill for resumption of voluntary enlistments in the peace-time army, which would be restricted to the maximum of 175,000 men, authorized in the national defense act of 1916.

The senate measure now goes to conference and will become effective upon approval by President Wilson. The army bill also was adopted by the house without a record vote. It goes to the senate with its completion there at this session regarded as doubtful. It carries a total of \$1,070,000,000 for the war department for the 12 months after June 30.

War Time Army Unaffected.

It was explained by house members that the senate bill did not affect the present wartime army, which under the selective service act, must be demobilized within four months after peace is formally declared. Decision of the house to consider the senate measure was by a vote of 172 to 162. Chairman Dent, by direction of the house military committee, has asked for a rule to make the temporary army legislation in the regular appropriation bill in order but the rules committee took no formal action on the request.

Instead it voted 7 to 5 to report a resolution giving the senate measure the right of way. Ten Republicans joined with 102 Democrats in voting for the resolution in the house after a sharp debate.

One Year Enlistments Planned.

Before adopting the senate bill, the house amended it so as to provide that recruits should be enrolled in the regular army for only one year without further service in the reserve. Their pay was fixed by another amendment at \$30 a month, the wartime basis in the army.

Republican Leader Mann in explaining the votes of 155 Republicans against adopting the rule to consider the senate bill, said opposition was not against the bill, but was a protest against the failure to consider a temporary program that would enable the quicker return of troops from Europe.

The recruiting bill itself was finally adopted without a dissenting vote.

MINING ENGINEERS MEET

New President Favors Closer Cooperation With Canada.

New York, Feb. 19.—Suggestions that permanent committees be named by the American and Canadian institutes of mining engineers to consider problems of mutual mining interests, including mining prospects in Mexico, was made here at the continuation of the 119th annual meeting of the American institute.

Horace V. Winchell of Minneapolis, newly elected president, outlined differences between the mining laws of Canada and this country and expressed the opinion that a plan of co-operation between the two institutes would improve mining conditions in both countries.

CONDITIONS MUCH BETTER

Boilermakers at San Francisco Have Returned to Work.

San Francisco, Feb. 19.—With work resumed in four shipyards in the San Francisco bay district as a result of union boiler makers having returned to work under pressure from their international officers, the strike situation was regarded as more composed.

Deportations Are Defended.

Washington, Feb. 19.—Aliens found advocating destruction of property or overthrow of the government by force will be deported under the provisions of the Immigration act of Feb. 5, 1917. This announcement was made by Secretary of Labor Wilson in a letter sharply rebuking Micrometer Lodge 460, International Association of Machinists of Brooklyn, for protesting against the deportation of 58 "alien radicals." The secretary denied that the aliens were being deported without due process of law.

Receives Fair Challenge.

Chicago, Feb. 19.—Although he only regained the three-cushion billiard championship on Saturday night, Alfredo De Oro has received four challenges. It was announced, when one from Pierre Baupome of Milwaukee arrived. Three were ahead of him: Gus Copoulos of Detroit, Bob Cannefax of St. Louis and Clarence Jackson of Kansas City. In the order named. Friends of De Oro said he would consider the challenges in the order in which they were received.

LONG DEBATE DUE OVER ARMY BILL

MANY SENATORS TO TAKE THE OPPORTUNITY TO TALK OF MILITARY CONDITIONS.

MEASURE MAY BE DEFEATED

Minority Leader Mann Has Joyous Time With Larsen of Georgia Who Seeks to Put a Curb on Discussion.

By ARTHUR W. DUNN.

Washington.—Unless all signs fail the debate on the army appropriation bill is going to be long drawn out. The whole army condition is going to be threshed out thoroughly, particularly in the senate. It is somewhat of a surprise to those who want to avoid an extra session that the army bill has been delayed so long, for the talk upon it may defeat it and if it is defeated an extra session will be necessary in order to get money to support the army. It is evident that many senators are waiting for a fitting opportunity to say what they think about army conditions and they will take an opportunity to do so when the regular military appropriation bill is before the senate. On several occasions the military bill has been the last to be considered and once or twice it has failed to pass before congress adjourned.

Minority Leader Mann was in his element the other day. A comparatively new man, Larsen of Georgia, decided that there was too much talk going on in the house, and announced his idea of stopping it by objections. Chairman Padgett of the naval committee, who was piloting the naval appropriation bill through the house, urgently requested Larsen to desist, saying that long experience has taught him that nothing could be gained in that way. But Larsen persisted and the first person he ran afoul of was Jim Mann. "I hope the gentleman from—" Mann paused for a little time before adding "I do not know from what state he comes," and then he paused again until some member could interject "Georgia," and then added: "I hope the gentleman from Georgia will keep his nerve, but he will not."

Then Mann went on to talk for some time and finally made the usual motion "to strike out the last word," which allows a member to speak for five minutes. Larsen immediately objected and raised the point of order that Mann was not speaking on the motion to strike out the last word. Mann blantly remarked that the point of order was well taken and then moved to strike out the entire paragraph which he wanted to discuss, and in his most sarcastic way, turning to Larsen, remarked: "This is like taking candy from children."

As Mann predicted, Larsen did not keep his nerve, for he soon found out that the course he was pursuing would tend to defeat rather than to rush legislation.

"What is the remedy?" was a query put to the senate generally but more particularly to Senator Thomas of Colorado by Senator Kenyon of Iowa. He was speaking of the lack of employment in this country which was causing so much apprehension, and continued: "If there is not some remedy in carrying on public works, what is the remedy? The remedy is not to make speeches about it."

"Oh," remarked Thomas, "making speeches is a remedy for nothing, especially in the senate of the United States."

"That is the only way we remedy anything here so far as I know," continued Kenyon.

"Unfortunately," Thomas replied, "that is the only way in which we transact business here. The other house votes and does not talk. We talk and never vote, and of course I am just as guilty as anybody else."

"The learned senator from Colorado always talks very interestingly," interjected Vandaman of Mississippi.

"Interestingly and too much," acknowledged Thomas.

This talk of employing 500,000 men on government roads recalls the laughter which greeted the celebrated "Gen." Jacob S. Coxey when he marched his commonwealth army to Washington back in 1894 and demanded that the government issue \$500,000,000 in bonds and spend the money on roads so as to furnish employment for the hundreds of thousands that were then without work and living largely at the soup kitchens. It is quite probable that within the next five years all of \$500,000,000 will be spent on roads and most of it will go into labor.

An agricultural development of recent years, the dehydration or drying of fruits and vegetables, is attracting considerable attention from the scientists of the department of agriculture. These scientists declare that this drying process is cheap and that it affords a very good method for preserving foodstuffs from loss through rot, practically accomplishing the same thing for vegetables that freezing accomplishes for meat.

First Thing to Learn.

About the first thing to learn about a carburetor is to let it alone as long as it is working properly.

COMING BACK TWICE, IT'S KID GLEASON

BY H. C. HAMILTON.
 (Staff Correspondent, United Press)
 CHAPTER VI

Gleason ended his active playing days in 1906, when he occasionally went upon the field to fill in for a player ordered out of the game or injured. In later years he did some playing, but so little that his name scarcely appears in later day records.

The next engagement of this famous old war-horse was in Chicago, when Charles Q. Comiskey of the White Sox hired him as coach. What he has accomplished there only Comiskey and Clarence B. Rowland know, aside from Gleason himself. The latter refuses absolutely to discuss his connection with the White Sox after Clarence Rowland succeeded Jimmy Callahan as leader of the Chicago team but it is sufficient for the average fan to know that when Gleason was called from retirement by Comiskey to assist Rowland, the White Sox immediately kicked themselves loose from the kinks and acquired a reputation for aggressive, swift-thinking baseball, something they hadn't done before.

So much for the active playing days of Kid Gleason. What he has accomplished more recently and his sudden elevation to a bright spot in the firmament of the national game amounts to a great deal more in the estimation of the fan than any of his batting averages while a second baseman with the Giants or Orioles or as a pitcher with the old Philadelphia team that Harry Wright tried so hard to carry away pennants with.

Shortly after Charles A. Comiskey announced that Jimmy Callahan, former outfielder and pitcher, would no longer manage the White Sox, he unloaded on a startled public the news that Clarence Rowland, a minor leaguer in the truest sense of the term, would lead the famous club. He purchased Eddie Collins and Joe Jackson and began to build up a team with which, in his hopes, he would win another world's championship pennant to float from the flag pole in Comiskey field.

There is the real romance of the Gleason life—the secret of which hasn't been told fully and perhaps will not be. Certain bits of it, however, have altered out and will show just how much Gleason did to help the Comiskey outfit to its goal during those dark days at the fag end of the 1917 season—days when it seemed that a season's good work must

fail and the heart of Comiskey be made heavy by the knowledge that he had failed with the greatest team he had ever pieced together.

(To be Continued)

Canning.

The French were the first people to preserve fruits and vegetables. This was away back in 1810. The French government offered a prize for the best method of storing foods during the winter months, and among the solutions was the canning process. America invented the fruit jar and brought the canning industry to be one of the largest and most important in the world, running into billions of dollars annually.

My Back! Ouch!

Why have lumbago, anyway? You can keep your system free from the poisons which cause it. Simply keep your bowels empty. Don't let food-waste lie in your system to ferment and fill your blood with poisons. You can't expect your kidneys, lungs and skin pores to eliminate the poisons from your system if you do not remove the cause of the poisons.

Your druggist has a product called SALINOS, which will completely empty the bowels without discomfort to you. It is pleasant in taste and in action and creates no habit. It is fully effective if taken in cold water. Get a bottle. Be safe. Take it in cold water tomorrow morning.

CORP. H. M. RYAN HIT IN SIX PLACES

Poisoned Explosive Shell of the Germans Nearly Sent the Brainerd Man to Kingdom Come

SHRAPNEL NEAR HIS HEART

"No Shell Shock for Me", said Henry—Had One Pay Day in Eight Months He Said

Corporal Henry M. Ryan, Co. F, 58th Infantry, 4th Division, knows what it means to be hit by an explosive shell fired by a German battery. The Brainerd boy who formerly worked in the foundry and freight office here, left Brainerd Sept. 21, 1917 for Camp Dodge and was trained there and at Camp Pike, Ark., Camp Green, N. C., and then assigned to the 4th Division and landed in Europe on May 23rd.

As he was leading his detail at Verdun on Sept. 29 last year the shell nearly blasted Ryan into kingdom come. He remembers hearing the crash and of being blown up in the air and thirty feet back and coming down a mass of blood and wounds. Then he turned dead to the world. Some were killed about him. Checked up at Field Hospital No. 5 he was found to be wounded in half a dozen places got first aid and was then sent to Base Hospital No. 35.

Scrapes of red hot, poisoned metal had ripped wounds in him. A piece of shrapnel struck above the right knee, one in the right leg, one in the stomach, another perforated his intestines and exposed some, his left thumb was torn off and another piece a slug in size tore through his package of home photos and letters and lodged four inches from his heart. The Germans poison their high explosive shells and each shell splinter wound had to be doped with serum to counteract its poisonous effect. Twenty-seven big stitches were required to patch up Ryan.

Corporal Ryan and his detail were in a wave leading a charge and his little detail was about wiped out at 11 in the morning. The corporal has some of the shell splinters as mementoes and is being given further medical attendance at Fort Snelling base hospital.

"I've still got some splinters in side of me," said he, "and they've got to come out."

"And let me tell you" said he, "I never put in a claim for shell shock nor did any of my men remaining. That shell shock business is a funny thing. It was wonderful to see what an improvement there was in the shell shock section in the hospitals after the armistice was signed."

Corporal Ryan said prices were high at the "Y" and that all he got free was some writing paper.

"Many of us could not buy anything. We had no money. I had one pay day on July 4th in my eight months in France. The K. C.'s, Red Cross and Salvation Army won our gratitude," said Corporal Ryan.

He fought at Chateau Thierry and in the Argonne woods near the "Lost Battalion." On August 6 while searching out machine gun nests in the Argonne woods a hun sniper, ammunition exhausted, tried to cave in Ryan's head with the butt of a gun. Providentially the German caromed against a tree and the rifle barked the tree and then gave Ryan a glancing blow which knocked him out for a few minutes. He got up and continued leading his seven men when a machine gun bullet clipped him in the leg and knocked out his under pinning.

The corporal's squad were supplied with rifle and hand grenades. They preceded an infantry charge getting the first smash at snipers and machine gun nests. At Chateau Thierry eight bullets sang through his wet pack of 100 pounds. The blanket, slicker coat, half of a shelter tent, shirt, clothing, etc., in the pack stopped the rain of lead.

Rifle grenades are attached to the rifle and fired from the hip or ground. The recoil is terrific. He remembers one sniper getting several of his men until a Swede spotted the hun in the trees.

"I'll get that feller if I bust a lung," said the Swede private, and contrary to the appeals of his comrades, he hoisted rifle and grenade attachment to his shoulder and fired at the tree. Down came German, tree and all, including also the Swede whose shoulder was kicked out of joint.

Streams were bridged by felling trees across them. Often the men would be four days without food or water.

"It's all in the war game," said Corporal Ryan philosophically.

He came to Brainerd to attend the wedding of his cousin Miss Mabel Louise Wilmar to George Samuel Dahl.

Ryan is cheerful and as pugnacious as ever.

"I don't begrudge going" said he, "I was glad to fight for my country, to do my part for Uncle Sam."

SUNDAY SCHOOL SOCIAL

Successful One Given by the Presbyterian Church at Odd Fellow Hall

One of the most successful Sunday school socials given by the Presbyterian church was held Tuesday night at Odd Fellow hall. There was an attendance of about 200, Sunday school children, their parents and teachers.

A splendid program was furnished by members of the church and Sunday school with the assistance of several numbers from the outside.

Rev. F. B. Stevenson of Crosby, was impressed with the number and enthusiasm of those present and spoke of the necessity of building a church that would adequately house all such social affairs. He said that the Presbyterians had one of the most beautiful building sites in the city and the value of a new church would be great in arousing a new church spirit. The one thing needed, he told the children was for every one of them to cooperate with parents and teachers for this purpose. He hoped that another twelve months would tell the story of a beautiful new church on the South Side.

Games were played by the children led by the teachers and refreshments were served.

The Primary and Junior departments are planning on having a party for the younger folks in the near future.

The members and teachers of the Sunday school feel very grateful to Mrs. Nellie Reese, chairman of the refreshment committee and to Miss Georgia Brown of the program committee, for the splendid spirit in which they worked.

DE PALMA SPEED KING AT DAYTONA

Sets New Mark of 24.02 for One Mile On Famous Daytona Beach Course

DROVE AN ALL-AMERICAN CAR

Daytona Daily News Extra Sent the Brainerd Dispatch by Dr. Walter Courtney

Dr. Walter Courtney, who with his family is spending the winter at Daytona Beach, has sent the Dispatch the Daily News of Daytona containing an account of Ralph DePalma's feat breaking the mile and kilometer records.

The mile was made in 24.02 seconds, breaking Burman's record of 25.40 seconds. The kilometer was negotiated in 15.86, breaking Burman's record of 15.88 seconds.

Burman in 1911 used a German car, a Biltzen-Benz of 200 horsepower. DePalma hung up the new world records with an All-American car, a Packard special twin-six with a piston displacement of 304.8 cubic inches, or more than 400 inches smaller than the German car. DePalma's car contains an aviation engine.

At the tremendous speed attained the automobile is practically a projectile. Air resistance comes, not from the piling up of air in front of the car, but from the vacuum which is created behind. This vacuum retards a racing automobile. To overcome it, DePalma's car has a long tail, resembling the point of a bullet. This practically closes the air gap left behind. The body is of aluminum. The motor is a complete aviation engine with propeller removed and an electric starter put in place, as nobody could crank it by hand—three men are needed to crank a Liberty motor when fitted with aircraft propeller.

Daytona Beach is known among automobile enthusiasts the world over. At low tide the beach measures 300 to 500 feet in width, it is almost like asphalt in solidity, perfectly smooth and at every tide Mother Nature irons out any imperfections. The sand is largely composed of the shells of the quina clam.

Royal Arch Masons

At the annual election of Brainerd Chapter No. 42, Royal Arch Masons, these officers were elected:

H. P.—Jeph Thompson.
K.—Erick Westberg
Scribe—C. A. Nelson.
Treasurer—Milton McFadden.
Secretary—G. W. Chadbourne.
Captain of Host—Levi Johnson.
R. A. Captain—Lester Hitt.
P. S.—A. O. Tumas.

Card of Thanks

We wish to thank our friends and neighbors in Oak Lawn township, and our friends in Brainerd, for the kindness and sympathy extended us in our recent bereavement when wife and mother, Mrs. Nellie Hartman, was called to her reward.

ELMER E. HARTMAN
1tp and family.

OLD PAPERS—5c BUNDLE

"FATHER AND SON" SUPPER IS GIVEN

To be Made an Annual Affair at the First Methodist Church, First One is Successful

65 MEN AND BOYS ATTEND

Addresses by Local Speakers and Two Orators from Wadena, Much Enthusiasm Created

So successful was the first "Father and Son Supper" given at the First Methodist church Tuesday evening, 85 being present, that it will be made an annual affair of the church, bound to grow in interest and enthusiasm.

The supper served by the ladies of the church was a most satisfying one and they won much commendation for their culinary efforts. The tables were decorated with flowers and it looked like a big family gathering.

After the supper came the short addresses by local men and invited speakers from the outside.

Musical Numbers

M. B. Scherick presided as toastmaster. A prayer preceded the supper and an earnest prayer by J. H. Noble closed the meeting.

The musical numbers were especially charming. There was a duet by Miss Carol Bird soprano and Miss Elizabeth Weimar contralto. Later each sang a solo. Miss Grace Akenson was accompanist for the first two songs, Miss Weimar for Miss Bird's solo.

O. Skauge

O. Skauge, responded to the subject, "The Kind of a Boy I'd Like." He made a witty speech and showed himself at ease no matter how many interruptions followed. He did not want a perfect boy or his father would be out of place. Daddies nowadays expected too much from their boys and often forgot they had been boys themselves. He wanted the ideal boy to be a good red-blooded American who had accepted Christ as his saviour.

Henry Cunningham

Henry Cunningham's subject was "The Kind of a Father I'd Like." A boy liked the father who was a companion a real chum who showed his interest in what a boy was doing, who would solve problems with him, go to church and Sunday school with him. For real power and earnestness and simple eloquence young Cunningham's response was one of the most gripping and interesting ones.

John Leak

John Leak's subject was "The Kind of a Class I'd Like." The ages, said Mr. Leak, should be from 17 to 23. Fifty would make an ideal class. The attendance should be 95 per cent and the same percentage should govern in being on time. He pleaded for boys who would discuss the lessons intelligently. Such a class would be a power in any community.

H. F. Michael

"The Kind of a Sunday School I'd Like" was the title of H. F. Michael's talk. Mr. Michael had attended the centenary exercises in Minneapolis and referred to the proceedings there and to the recent Peace conference.

"Forget about the Sunday in Sunday school," said Mr. Michael, "call it instead a church school and religious instruction. He wanted the influence of more men in the Sunday religious education work."

"We have a message for the men and the boys," said Mr. Michael. He paid a tribute to President Wilson whose high ideals, expounded in the church school and pulpit, was lifting up humanity.

Rev. C. H. McCrae

Rev. C. H. McCrae pastor of the First Methodist church of Wadena, gave the address of the evening on "Brains in Sunday School." We are each the result of our thinking, he said. Thought to the mind was as blood is to the body. Then in logical sequence he traced a color scheme of thought, from the dark kind of Mohammedanism and the Nietzsche school of philosophy to the patriotic national colors of America.

In his discussion Rev. McCrae dwelt on the Sinn Fein movement in Ireland, "We for Ourselves" and he gave no sympathy to their aims. He characterized the Sinn Fein movement in Ireland as a yellow stream in British national life and said that while the huns had their hands on the throat of Britain, the Sinn Feins were hobnobbing with the Germans. He praised Mayor Ole Hanson, Seattle executive who showed fifty bolsheviks the road back to Russia.

Rev. McCrae at the close paid a tribute to America. Born in Ireland, he appreciated what America had done for him. The Centenary movement was described and the extension of church work.

Dr. Charles Pierce

Dr. Charles Pierce practicing physician of Wadena who in his youth played baseball, gave a short, straight from the shoulder talk and urged church attendance tithing, support of the minister, attendance of

men at church and prayer meeting and Sunday school. He had seen the light four months ago and had induced others to take a stand for the church.

"I had a hundred per cent batting average when it came to attending church suppers," said the doctor "and left it to the mothers of the church to attend service and Sunday school. Then I got to see the light and mended my ways. I induced others to attend church to speak for Christ."

Rev. E. A. Cooke

Rev. E. A. Cooke spoke of the "Kind of Men He Would Like in Church." He was satisfied with the hopeful general average and was not looking simply for pious men. He did wish though, that it were backed by his congregation, all headed for the things that are right.

"Bigger than the war game of killing people is that of saving people. We must get our nerve in religion," said he in closing.

MRS. CUYLER ADAMS IS LAID TO REST

Was Daughter of the Late Col. J. B. Culver and Wife of Cuyler Adams, of Deerwood

SHE NAMED THE CUYLER RANGE

Was a Notable Woman, a Constant Reader, an Eager and Interested Traveler.

(Duluth News Tribune)

Funeral of Mrs. Cuyler Adams, daughter of the late Col. J. B. Culver, and wife of Cuyler Adams, explorer and developer of the Cuyuna range, was held yesterday afternoon. She was buried at Forest Hill cemetery.

It was Mrs. Adams who conceived the title of the Cuyuna range by combining the first syllable of her husband's name and that of his dog, Una, which went with the master on his trips to what is now Deerwood.

In referring to the life of Mrs. Adams, Rev. A. W. Ryan of St. Paul's church, who conducted the funeral service, said:

"Mrs. Adams was a noble woman. Educated in the east, married at an early age, a constant reader and an eager and interested traveler, she brought unusual natural endowments to a high stage of refinement and culture. She was a born patrician, but joined with that interest in the practical side of life. Her domestic menage was enviable and her home a refuge from toil and the natural tedium of living. Her rich personality and wide experience made her a hostess of rare type and infinite variety."

"Like all people of strong character came into alight contact with her, she made an impression wherever she lived and people who only realized that she was a personage above the ordinary."

"For many years she lived what seemed to be an ideal life. The summers were spent on the borders of quiet and lovely Reno lake. The winters in part in Duluth, or mostly journeys to the southland, or even around the world. Over five years since she lost her son, Francis Salisbury, a geologist of remarkable promise in his chosen field of work. To commemorate him and his promising professional career, she with her husband established the \$10,000 endowment for St. Paul's church, to maintain and improve the choir music which Salisbury loved so much."

"It is given to few women to arouse the ardent respect and admiration that always followed Mrs. Adams, but her high-mindedness, her stability and strength of character, her practicality and culture marked her as unusual among women. Her friends are stunned by the tragedy of her sudden and too-early departure."

Besides her husband the deceased is survived by two sons, Cuyler and Robert; two brothers, Charles and Frank Culver, and two sisters, Mrs. Kate Whitelaw and Mrs. J. H. Simon.

PARKER WAITE

Pays Visit at Pillager, Where He Formerly Made His Home—Speaks of Canadian Home.

(Pillager Herald)

Parker Waite of Bath, Lenox County, Ontario, who, with his wife and mother are visiting their daughter, Mrs. Fremont Turcotte of Brainerd, was a caller on the Herald Thursday last and chewed the rag over the good old times he once enjoyed together in Pillager before he emigrated to Canada.

Especially the time on one Fourth of July when Parker edited the Herald on a large float. Mr. Waite while a resident of Pillager was one of our best boosters and he and our friend, Wm. Coe, now deceased were the men who forced the building of the Pillager creamery now of so much benefit to the village and farmers of the Crow Wing valley.

Since moving to Bath, Ontario, Mr. Waite has become leading booster

Optimistic Thought.

If illness has its trials it also has its blessings.

OLD PAPERS—5c BUNDLE

IN AGONIZED SILENCE

German Assembly Listens to Reading of New Terms.

Herr Erzberger Announces Conditions and Members Realize Germany is Crushed.

Welmar, Feb. 19.—The party speeches in the national assembly suffered a rude interruption by the outcome of the new armistice negotiations. The general outlines of the new terms were known early, and it was no surprise when President Fehrenbach announced that the speeches and arguments would be deferred, so that Matthias Erzberger, head of the German armistice delegation, might give a personal explanation of what happened between his departure for Treves and his unexpectedly quick return.

Herr Erzberger, noticeable wrought up and laboring under a strain, began with the announcement that the delegates were entitled to know at the earliest moment the full details of the negotiations. He then read the terms and the house listened in almost agonized silence. A slight stir or noise brought angry hisses. The assembly had never been one tithe so still. The members of the house stirred uneasily as he finished and stopped for breath. Before continuing his explanation Herr Erzberger interjected: "It is my wish that you may never have the fateful hours I have had. We on the armistice commission have had to bear untold responsibility."

DECLARES GENERAL STRIKE

German Anarchists Active in Rhine Industrial District.

Copenhagen, Feb. 19.—A general strike has been declared in part of the Ruhr industrial district along the Rhine and the Spartacists have occupied Bochum, Hamborn and a number of other places, according to a report from Berlin.

The Spartacists are reported to be fortifying the waterworks and electric power houses at Dusseldorf, Muhlheim and Hamborn.

FOUR TEXAS BANKS CLOSED

Action Follows Suspension of National Institution.

Dallas, Texas, Feb. 19.—Following the closing of the Citizens National Bank of Garland, Texas, by order of R. S. Collier, national bank examiner, four small private banks were ordered closed. T. N. Hickman, president of the Garland bank, was a heavy stockholder in all of the private institutions.

Mere Incident in Cat's Life.

You're not obliged to believe the following story, nor even strain your imagination over it. The Bath (Maine) Times tell it. About four years ago a Bath man went smelt fishing off a wharf on the river side and when he returned leaned up his pole on which was his fishing line in a corner of the kitchen. Attached to the hook was a minnow for live bait and this was wriggling on the hook, when the man's pet black cat came and espied the fish and made for it. Before the owner could prevent, the cat had swallowed the fish and the hook. It was impossible for the man to pull out the hook without killing his pet so he cut the line, leaving the bait and the hook and a small portion of the line within the coony. The cat seems to have assimilated the hook, for she never has shown any symptoms of discomfort from her strange meal and is still alive and in apparent good health.

New York Butter and Eggs.
New York, Feb. 19.—Butter, barely steady, 92½; creamery higher than extras, 7½@58c; creamery extras, 56½@57c; firsts, 48@55c; packing stock, current make No. 2, 34c.

Eggs, firm, 15.80; fresh gathered extras, 47@47½c; fresh gathered, regular packed, extra firsts, 46@46½c; do firsts, 44½@45½c.

French Desire Intervention.

Paris, Feb. 19.—Renewed pressure was being exerted on the supreme war council for an immediate intervention in Russia. It was declared from an authoritative source. The French were said to have urged again that military action be taken against the Bolsheviks on a large scale, while War Minister Churchill's proposal—which has not been made public—was understood to contemplate proclamation of a state of war, if necessary. The American position in opposition to a military policy is unchanged.

CHAIRMAN OF PRICE BOARD

Secretary Redfield Appoints George N. Peek of Moline, Ill.

Washington, Feb. 19.—George N. Peek of Moline, Ill., former member of the War Industries board, has been chosen by Secretary Redfield as chairman of the new government price conference board. Mr. Peek will select his associates. Through the committee the government hopes to aid industry to get back on a peace time basis with increased business through lower prices.

Laud League Covenant.

London, Feb. 19.—Two leading British legal authorities, Lord Buckmaster and Baron Parmoor, who have taken a prominent part in advancing the cause of a league of nations, expressed satisfaction with the covenant of the league of nations as laid before the peace conference. Lord Buckmaster is a former Lord Chancellor and Lord Parmoor is the judicial member of the privy council. Lord Buckmaster says the scheme is sufficient and that he believes it will endure.

NONE TOO POOR TO HAVE A PART

Every American Citizen Should Join Movement to Help Nation Finish War Job.

JOIN SAVING SOCIETY

They Furnish Definite Agency to Promote Americanism and Crystallize Habit of Thrift—Furnish Stimulant for Sale of Securities.

This is the question some 286 county chairmen and their assistants will ask of several million people in the six states of the Ninth Federal Reserve District during the week of February 17 to 24—officially known as Savings Society Week.

To everyone who answers this question in the negative, some member of the organization will put the question—"Why not?" And the burden of proof will then be upon the individual to show why, as a good American citizen, he has not taken this first important step in helping his Government finish the job.

"We believe that there will be organized in this district during Savings Society Week at least 20,000 War Savings societies," declared War Savings Director J. H. Meyering in a report on the work made to Chairman A. R. Rogers. Mr. Meyering explained that practically all chairmen had been appointed and in the big majority of counties were already on the job. He said that literature necessary for the explanation of the district's organizing campaign would be in the hands of the workers in plenty of time, and that from the report of his field workers he felt very sure the men on the firing line would be ready to start the campaign with a rush on or before Monday, February 17.

Societies Are Necessary.

Dr. George N. Bauer, Vice Director of the District War Savings Division, upon his return from a tour of some Minnesota and South Dakota towns, stated that he was confident the results of the Organization Week would be satisfactory. He stated emphatically that in his opinion the people of the district would respond to the appeal of their Government, and that all that was necessary was to make them understand that the appeal was urgent. He said his experience had convinced him that the people were ready to do their share by eliminating waste, saving and buying stamps, and that the principal job which the organizers had before them for the present was to convince people of the value of War Savings societies and the necessity of organizing them.

"The Thrift campaign is an all-American movement," said Dr. Bauer. "No one is too poor to have a part, none so well off he can be indifferent."

"Everyone who is concerned in the business of living is interested in the Thrift campaign. The Savings society is the mechanism for making the campaign effective. It brings the campaign to all, not to one or two."

Why Savings Societies.

"I am asked many times why it is necessary to have these societies," said Dr. Bauer. "I have summed up the vital reasons under the following five heads. It is necessary to organize War Savings societies, because—

"1. They furnish a definite plan for bringing many important economic problems to the attention of the community."

"2. They furnish a definite agency to promote Americanism. At the moment there is nothing more important than that people should be awakened as to the dangers which threaten our form of Government and impressed with the importance of loyally supporting our institutions. This can be done more effectively through societies than by working among individuals."

"3. They furnish a means to crystallize habit of Thrift and furnish a stimulus for the sale of Government securities."

"4. Through group societies it will be possible to bring to the attention of people everywhere information and inspiration in the form of letters, pamphlets and the spoken word."

"5. The sale of War Savings stamps, which is the immediate result desired from Thrift education, will be increased during a long period of time if carried on through societies because the individual will perform his duties more faithfully if encouraged and checked up by associates interested in the same cause."

These are some of the reasons why the national and district War Loan Organizations have determined upon an intensive campaign of organizing War Savings societies as the basis for the 1919 selling campaign.

—THINK IN INTEREST—SAVE—

Are Your Children Acquainted with Brer Rabbit Molasses

CHILDREN have a natural craving for sweets. Satisfy this craving with GOLD LABEL Brer Rabbit Molasses—like most mothers are doing.

Brer Rabbit is absolutely pure—the real New Orleans Molasses from New Orleans.

Every slice of bread and Brer Rabbit you serve saves sugar; cuts the butter bill; builds health, and is

delicious, wholesome and economical. P.S.—GOLD LABEL Brer Rabbit is for table use—and especially fine for cooking and baking. The GREEN LABEL costs less and is splendid for cooking and baking.

Don't Worry About Sugar
Thousands of housewives are using Brer Rabbit real New Orleans Molasses for stewing Prunes, Dried Apples, Peaches, and other dried fruits. For baking Fresh Apples—for all kinds of cooking and baking.
Brer Rabbit, you know, comes from sugar cane—like table sugar. It contains a large amount of real sugar—it not only sweetens, but gives the rich, delicate flavor of the real New Orleans Molasses.
Write us today for FREE Brer Rabbit Cook Book. Tells you how to make delicious desserts without sugar.

WILSON'S SUCCESS HANGS IN BALANCE

SOME OF PRESIDENT'S WARMEST FRIENDS IN DOUBT ABOUT HIS FOREIGN MISSION.

HOPE HE'LL STAY AT HOME

Interest Lost in German Propaganda and Security League Investigations—Periodicals Being Started for Those Who Have Been in Service.

By ARTHUR W. DUNN.

Washington.—There is still considerable doubt expressed as to whether or not the president will make a success of his foreign mission. Some of his best friends are apprehensive and feel that he is endangering his popularity and will mar his place in history. Of course they all say that it depends upon how successful he is in carrying out his ideals for curing the ills of the world and making people happy and contented and satisfied with their governments. At the same time there are many practical men who seem to think that human nature, not having changed to any extent since the dawn of history, is likely to continue along the same line, and that the turbulent peoples of central Europe are not likely to become quiet through the decrees of any peace conference. There is also a strong impression that the United States will be far afield if it has to engage in governing, policing or in any other manner enforcing the rules and regulations of the peace conference upon foreign nations.

It is because the plans of the president have become considerably enlarged since he went to Europe that his friends fear for the entire success of his mission. Many of them have been privately expressing the hope that he will find a way to leave the settlement of all questions that have arisen at the conference to those who are most interested in the negotiations and that when he returns to America he will find good reasons for not going back to Europe.

Few investigations turn up very much of a really sensational character. It is not often that any great legislative act is hung upon a congressional investigation. At the present time there are investigations going on in a dozen different rooms at the capitol, and while once in a while something of importance crops out there is no great discovery such as the in-

urance investigation brought out in the city of New York. All interest has been lost in the German propaganda investigation, and the same may be said of the investigation as to the work of the National Security league in regard to electing or defeating members of congress. But there is a congress, and one in a while some pretty big thing will no doubt be turned up which will be considered a real sensation.

Magazines and newspapers for men who have been in the service during the war are being established with great rapidity these days. Many separate branches of the service have periodicals which cater to the men who served in those branches, which look after the interests of soldiers and sailors generally with particular attention to those who served in the branch for which the periodical is gotten out. The tank corps has a monthly; the air service issues a publication; there are a number of newspapers published at hospitals of the army in an effort to help wounded and maimed soldiers become self-supporting. Publications of this sort have a field of something like three million men who are interested in such questions, and some of them are sure to become very powerful factors in expressing the opinions and working for the interests of our veterans of 1918.

Whenever Martin Dies gets into a debate he says something interesting. The Texan is serving his last few weeks as a congressman, but he is as good as ever. He had this to say about the conditions in Russia: "They have more liberty in socialist Russia today than they know what to do with. (Laughter and applause.) A man can absolutely yell at the top of his voice in a meeting house; he can shoot, he can do anything on earth except to retire to his home castle and say, 'This is my citadel and I and my wife and children are safe.' He cannot do that. He can do anything on earth except to make a crop with the assurance that he can gather his own crop. He has all the liberty that a wild ass of the prairie has (laughter and applause), without the mule's security." (Laughter.)

Congressman Walsh of Massachusetts is very precise in his statements, whether it be putting a question on the floor of the house, in committee, or making an assertion of his views. He is very careful in the choice of words, and is able to make a long and complicated statement and keep it within the bounds as to scope and meaning. A lot of men who undertake to propound a hypothetical question or make a complicated statement often get tangled, but Walsh is precision itself on such occasions.

ATTEMPT MADE TO ASSASSINATE FRENCH PREMIER

SENATE PASSES WATERWAY BILL

River and Harbor Measure Carries an Appropriation of \$33,000,000.

GOES TO CONFERENCE

Amendment Authorizes Survey of Ocean Route to Connect St. Lawrence and Great Lakes by Enlarging Welland Canal.

Washington, Feb. 19.—Without a record vote the senate passed the annual river and harbor bill, carrying appropriations of \$33,000,000 or \$6,000,000 more than the original house measure. The bill now goes to conference.

The measure had been before the senate for nearly a week and was attacked by both Republicans and Democrats who insisted that many of its provisions were unnecessary. Before the final vote the senate rejected a substitute by Senator King of Utah to appropriate \$5,000,000 to be expended by waterways commission. Another substitute by Senator Smoot, appropriating \$15,000,000, also was defeated.

St. Lawrence Survey Approved. After three hours' debate the senate adopted, 43 to 18, an amendment by Senator Lenroot of Wisconsin, authorizing the International Joint Commission of the United States and Canada to investigate the advisability of an ocean-going ship waterway to connect the St. Lawrence river and the Great Lakes by enlarging the Welland canal.

The senate also adopted an amendment by Senator Calder of New York authorizing a survey of a ship canal to connect the Great Lakes and the Hudson river.

As sent to conference, the bill provides for 75 new projects, five more than authorized in the house measure.

The house provisions appropriating \$3,000,000 for the purchase of the Chesapeake and Delaware canal was retained today by the senate, which also adopted the amendment reducing from \$2,500,000 to \$1,000,000 the appropriation for the improvement of the Delaware river.

Mississippi Appropriation Increased.

On motion of Senator Lewis of Illinois, the senate increased the appropriation for work on the Mississippi river from the mouth of the Missouri to Minneapolis from \$250,000 to \$500,000. The senate also adopted an amendment by Senator Shepard of Texas, authorizing the expenditure of \$785,000 already authorized to complete the Galveston, Texas, sea wall.

Surveys authorized by amendments adopted included that of a waterway to connect Puget Sound and Grays Harbor, Washington.

ANARCHIST LEADERS DIFFER

Lenine and Trotsky at Odds Over Offer From Allies.

Stockholm, Feb. 19.—Serious differences of opinion have arisen between the Moscow soviet, headed by Premier Lenine, and the Petrograd soviet, headed by Leon Trotsky, over the Allied proposal for a conference on the Princes' Islands, according to a dispatch from Helsingfors.

Lenine, it is said, wishes to accept the invitation for a conference on account of the economic situation of Russia, which is declared to be hopeless. Trotsky is declared to be of the opinion that the occupation of the Ukraine offers the possibility of food and fuel supplies for the soviet government.

TO SEEK WET REFERENDUM

Distillers to Attack the Prohibition Amendment in 14 States.

Cincinnati, Feb. 19.—Referendum vote will be sought in 14 states on the federal prohibition amendment, according to an announcement made by the National Association of Distillers and Wholesale Liquor Dealers here today. The states are: Arkansas, California, Colorado, Idaho, Maine, Michigan, Missouri, Nebraska, Nevada, New Mexico, Ohio, Oregon, Utah and Washington. Leading distillers state they believe that at least 13 of these 14 states will reject the amendment and thus defeat national prohibition.

MAYOR SUFFERS BREAKDOWN

Due to Exposure and Overwork During Seattle Strike.

Seattle, Wash., Feb. 19.—Mayor Ole Hanson is lying at his home suffering from a nervous breakdown, said by his secretary to be the result of exposure and strenuous work during the general strike here. A physician is in constant attendance.

The mayor may be confined to his bed for some time, according to a brief bulletin issued by his doctor.

WILLIAM E. BORAH
Declines Invitation to Dine at White House.

Senator Borah has declined President Wilson's invitation to dine at the White House and discuss the league of nations. He based his declination on two points: First—That he and the President are fundamentally at odds regarding any league of nations plan and, second, that he could not allow himself to be bound by a confidential discussion no part of which he could use later in argument of public discussion.

Fears Military Germ Lives.

London, Feb. 19.—The world is far from assured that the germs of the plague of militarism have been killed in the Teutonic soul, said the Times in commenting on the speech of Count von Brockdorff-Rantzau, German foreign minister to the national assembly at Weimar. "The speech," it adds, "is the latest example of the temper in which the Germans regard or attempt to regard the position in which they stand. He attributes the Allied victory to their economic and not to their military conduct."

Money to Kill Corn Pest.

Washington, Feb. 19.—Secretary Houston has asked Congress to appropriate \$500,000 to be used in combatting the spread of the European corn borer. The pest, which made its appearance in Massachusetts, has spread over an area of 60 square miles near Schenectady, N. Y., and also a region in Connecticut. Secretary Houston said that the danger of spread of the insect with its consequent serious damage in regions of intensive corn culture fully justified the appropriation.

Marine Corps Commander Being Decorated With the Croix de Guerre on German Soil

France has gratefully acknowledged the part the American marines played in the final onslaught which overwhelmed the Hun. This photograph shows Major General John A. Lejeune, of the United States Marine Corps, commander of the Second Division, being decorated with the Croix de Guerre at Leutesdorf, Germany. Brigadier-General Wendell C. Neville, also of the Marine Corps, is planning the medal on his breast.

Revolution Threatens to Break in Germany

(By United Press)
Weimar, Germany, Feb. 19.—The real revolution threatens to break out in Germany at any hour. This imminent upheaval is not political but economical, and it is being organized by the workmen themselves. For the past three days delegates from the workers' council of the Essen region have been serving ultimatums on the new German cabinet insisting upon socialism of industries, minimum wages higher than the present maximum, recognition of all workmen's councils and the abolition of capitalism. The workers program borders on communism, but they have declared against violent methods unless absolutely necessary.

McCumber Wants Allies to go After the Bolsheviks

(By United Press)
Washington, Feb. 19.—A resolution declaring that the United States in co-operation with the allies should send an army of sufficient force to Petrograd and Moscow and other points in Russia to defeat the Bolsheviks was introduced into the senate today by Senator McCumber, of North Dakota, as a substitute for a resolution by Senator Johnson, of California.

Spartan Mobs Attack Prison

(By United Press)
Stockholm, Feb. 19.—Spartan mobs in an attempt to free Carl Radek, the Russian bolshevik minister, attacked the famous Moabit prison in Berlin. Both attempts were repulsed by government troops.

Much Money Goes to Waste.

Whole shiploads of honey have been sent to Europe, and more is wanted. Few people realize that 250,000,000 pounds of honey are produced in the United States alone each year. Yet the department of agriculture says that the output ought to be much greater, and that millions of dollars' worth of sweets annually are going to waste in the fields for lack of bees to gather the nectar. When the consumer pays twice as much for a comb of honey as he did a few years ago he feels disposed to buy a stand of bees himself.

Marine Corps Commander Being Decorated With the Croix de Guerre on German Soil

(By United Press)

Paris, Feb. 19.—Premier Clemenceau, chairman of the peace conference was slightly wounded by a shot fired at him from a revolver as he stepped into his motor car leaving his home at 8:30 this morning.

The assailant was arrested. It was learned that the assailant fired eight shots at the limousine as Clemenceau was seating himself. Two of the bullets penetrated the glass door, and one inflicted a flesh wound on the under side of the Premier's right arm just below the shoulder. He walked back into his home unassisted.

Cottin, the assailant, refused to make any statement. He is about 18 years old, a French civilian, and is said to live in Compeigne.

Clemenceau canceled an engagement with Colonel House, of the American delegation, set for 10 o'clock, but stated the wound was very slight.

Clemenceau as chairman of the peace conference is the biggest figure in Europe at the present time. He is seventy years old and is popularly known as the Tiger of France.

Poindexter Attacks League of Nations

(By I. C. MARTIN
(United Press Staff Correspondent.)

Washington, Feb. 19.—Senator Poindexter, of Washington, today attacked the League of Nations constitution. A frightful compact, a fatal covenant, which will steal away American national sovereignty and make this nation a party of a great international soviet, was the inscription given by Poindexter.

TWO HELD IN INQUIRY

Minneapolis Men Arrested Following Closing of 13 State Banks.

Accused of Loading Institutions Which They Controlled With \$500,000 in Worthless Paper.

Minneapolis, Feb. 19.—Charles F. Wyant, president of the thirteen banks of Minnesota closed by the state superintendent of banks, who was arrested in connection with accusations that he had permitted the sale of alleged worthless paper to the banks aggregating more than half a million dollars, made a statement to County Attorney Nash, in which he admitted the transaction, and was released from custody to do what he can to help reimburse the banks for their losses.

Minneapolis, Feb. 19.—Following the closing of a chain of 13 small state banks by order of F. E. Pearson, state superintendent of banks, William H. Schafer, Minneapolis promoter, and Charles F. Wyant, president of the Mortgage Securities company, were arrested and held in the city jail.

County Attorney William M. Nash said both men would be charged with first degree grand larceny, growing out of the alleged "loading" of the closed banks with doubtful or worthless paper said to aggregate from \$500,000 to \$700,000.

Banks closed by state action are: St. Louis Park State bank, Waconia State bank, State Bank of New Prairie, State Bank of Chanhassen, Peoples State bank of St. Bonifacius, State Bank of Augusta, Merchants and Miners State bank of Tower, Farmers State bank of Skyberg, Marine Mills State bank, Farmers State bank of Cologne, Farmers State bank of Frontenac, Hamel State bank, Farmers State bank of Long Siding.

It is possible that depositors will lose nothing through the closing, the superintendent said. In the cases of many of the suspended banks, he said, it is possible the directors and stockholders may raise sufficient funds to take up the doubtful paper and permit early reopening of the institutions.

Superintendent Pearson said that the mortgage company was controlled by Schafer, and that each of the closed banks, within the last 90 days, had purchased from the company much commercial paper of little or no value. "Each of the banks," said Mr. Pearson's statement, "recently purchased through the Mortgage Security company a large amount of paper made by persons and corporations of little or no financial responsibility, and through these transactions the capital of each bank became impaired to such an extent as to make it necessary to close it."

Balkan Confederation Demands Recognition

BY HENRY WOOD,
(United Press Staff Correspondent.)

Paris, Feb. 19.—The Balkan confederation will demand permanent representation on the executive council of the league of nations along with the five great powers it is learned from an authoritative source. This group comprising Greece, Serbia, Rumania, and Checho-Slovakia was organized by Premier Venizelos for defensive purposes, a common Balkan policy and especially the enforcement of peace in southeastern Europe. It is now known that Premier Venizelos during the league of nations discussion urged adoption of a clause permitting defensive alliances. Although the commission refused to insert such a clause in the draft it did not prohibit such alliances and merely provided for the registration of such treaties.

MORE CLAIMS APPEAR

Serbs, Slovenes and Croats Present Demands.

Italian Delegates Refuse to Arbitrate Territorial Dispute With Jugo-Slav States.

Paris, Feb. 19.—The Italian delegation to the peace conference, according to an official note, has informed the secretary of the conference that it cannot accept the proposal for the arbitration of Italian and Jugo-Slav claims in Dalmatia as urged by the Jugo-Slavs.

The territorial claims of the Serbs, Slovenes and Croats were submitted to the Supreme Council at its meeting by M. Vesitch, M. Trumbitch and M. Volger. According to an official announcement, it was decided to submit the question of the frontier claimed, except those in which Italy is directly interested, to the commission already charged with the question of the frontiers of the Banat.

MEANS FEDERAL OWNERSHIP

Daniel Willard Opposes Government Holding Railways.

Washington, Feb. 19.—Daniel Willard, president of the Baltimore & Ohio railroad, before the senate interstate commerce committee opposed government ownership, extension of the present control until 1924 and the plan of co-operative operation advanced by the four brotherhoods. He said he believed if the five-year extension plan were carried out, government ownership would be inevitable.

American Armys Leader Saying Good-by After Visiting Canadian Corps Commander

This photograph, just received in this country, shows General Pershing saying "Good-bye and Good Luck" to General Currie, Canadian corps commander, at the end of a visit the American doughboys' leader had made to the headquarters of General Currie.

SENATOR VARDAMAN
Calls League of Nations Plan Unconstitutional.

Senator Vardaman of Mississippi, Democrat, declared the league of nations was unconstitutional and criticized President Wilson for asking Congress to remain silent on the subject until he returned to Washington.

MAJOR EDWARDS CONFESSES

Admits Forging Pay Vouchers of Minnesota Guardsmen.

St. Paul, Feb. 19.—John W. Edwards, former major and chief accountant and paymaster of the state's military department, in a confession made to R. D. O'Brien, county attorney of Ramsey county, in the presence of Adj. Gen. W. F. Rhinow, State Auditor J. A. O. Preus, Mat Desmond, assistant state auditor, and Bert Kingsley, chairman of the special committee of the house committee on military affairs, told of the forgery of 15 vouchers for extra pay for services of Minnesota guardsmen on the Mexican border. He admitted these vouchers, totaling \$2,170, were cashed by him.

LEADS WAR STAMP SALES

Nebraska First, Ohio Second and South Dakota Third.

Washington, Feb. 19.—Of all the Northwestern states, South Dakota leads in the sale of war saving and thrift stamps. It is the third among the states of the Union, Nebraska being first and Ohio second. The total of the sales for South Dakota were \$9,911,807.81.

Minnesota is in the nineteenth place in total sales amounting to \$27,290,858.62 with a per capita of \$11.75.

North Dakota is thirty-fifth among the states on total sales with a total of \$5,738,515.

GERMANY MUST REDUCE FORCES

New Armistice Terms Are Essentially Those of Preliminary Peace Treaty.

WAR MATERIAL HELD

Peace Conference Marking Time Until Wilson's Return, Though Work on Various Problems Continues During Absence.

Paris, Feb. 19.—A Havas report says the special commission of the supreme council charged with drafting the terms of a definite armistice, which will hold good until the peace preliminaries are signed, has almost completed its task and it is possible that Marshal Foch will be able to notify the Germans in two or three days of the military and naval terms, which will be essentially those of the preliminary peace treaty.

It is understood that the terms will include clauses by which Germany will be allowed to maintain only 250,000 men under arms to keep order.

All war material beyond what is necessary to equip these troops would, according to report, be placed under control of the Allies, who will also hold Germany's munition factories.

Labor Legislation.

Equal representation for governments on the one hand and employers and labor on the other has been decided upon by the commission on international labor legislation in adopting plans for the meetings of the proposed annual international labor conference. The plan adopted was that presented by British delegates with an amendment proposed by the Belgian delegation. Samuel Gompers, head of the American Federation of Labor, presided over the meeting.

Conference Marking Time.

The peace conference is expected figuratively to mark time until President Wilson returns from his brief furlough in the United States. Work on the details of the various problems will continue during the president's absence, but it is understood that no momentous decisions will be made until he again takes his seat at the peace table, probably the middle of next month.

Is Military Treaty.

London, Feb. 19.—The terms of the new military treaty imposed on Germany in lieu of the monthly armistice and as a part of the final peace conditions, according to the Daily Mail's correspondent, include, in addition to the destruction of the fortifications at Halgoland and the Kiel canal and the opening of the canal to traffic, the immediate surrender of certain warships which have not yet been given up as required, and the conversion of the status of the German fleet in the Scapa Flow from that of internment to surrender.

The correspondent adds these surrendered ships eventually will be destroyed, the idea of dividing them among the Allies having been abandoned.

NEW MONTENEGRIN CABINET

Former Foreign Minister Plamenatz Becomes Premier.

Cettinje, Montenegro, Feb. 19.—King Nicholas having accepted the resignation of the cabinet headed by Eugene Popovitch, a new cabinet has been formed under the premiership of J. S. Plamenatz, former foreign minister, and a former president of the Montenegrin chamber of deputies.

In addition to being premier, he also holds the portfolio of foreign affairs and internal affairs.

FAVORS SHORT TERM NOTES

House Committee Is Opposed to Further Bond Issues.

Washington, Feb. 19.—The house ways and means committee tentatively decided to authorize no more bond issues, members said, but to authorize issuance of short term notes to raise money that will be needed to run the government.

If the tentative short term plan goes through, committee members said, there will be no further Liberty Loan campaigns.

PARIS PRESS IS SATISFIED

Papers Rejoice Over Forcing Truce Terms on Germany.

Paris, Feb. 19.—The Paris press expresses satisfaction over the extension of the armistice with Germany under the conditions imposed.

"Once more the Germans have bowed to the firmly expressed will of the Allies," says the Matin. "Germany needed a pointed warning. She now has only the policy left her—to pay and seek oblivion."

DISPATCH WANTS GET RESULTS

Washington took the future in his own hands

He was not afraid to plunge into the Sea of Life and strike out for his goal. Don't stand on the brink, trying to plan an easy way to get there without a struggle, but make up your mind that you have to fight for what you want, and that the biggest fight will be with yourself. Strike out for yourself today. A dollar is the foundation of many a man's success. If it takes a fight to save your first dollar—make that fight NOW and deposit your dollar at

ELK'S MEETING
Thursday, Feb. 20
Nomination of Officers
Membership Campaign
Elks Home

Mr. and Mrs. Parker Waite and his mother, Mrs. E. Waite of Bath, Ontario, Canada, guests for some weeks of Alderman and Mrs. Fremont Turcotte, son-in-law and daughter of Mr. and Mrs. Waite returned home this afternoon by way of Michigan.
"Do-it-Now" is triple-distilled wisdom. Apply it to your business education, and start your course with us at once. We have some big things in store for you. Write or call for particulars. Brainerd Commercial College. 11
Mrs. Benedix returned from the hospital at Brainerd Monday. She has been there for two weeks under treatment for rheumatism but very little improvement was noted and she was called back there again for further treatment by her physician.—Pillager Herald.
Mrs. Wm. Betts, delegate of American Lodge No. 46 Degree of Honor, went to St. Paul on the early morning train Monday to attend the Grand Lodge session of the Degree of Honor. She was accompanied by Mrs. Carl Bentley, Mrs. Wm. Sasser, Mrs. Ivan Sheets and Mrs. Oscar Hagberg.

MYSTERIOUS PAINS AND ACHES
Make Life Hard to Bear For Many Brainerd Women
Too many women mistake their pains and aches for troubles peculiar to the sex. More often disordered kidneys are causing the aching back, dizzy spells, headaches and irregular urination. Kidney weakness becomes dangerous if neglected. Use a time-tried kidney remedy—Doan's Kidney Pills. Hosts of people testify to their merit. Read a Brainerd case:
Mrs. A. Noakes, 313 S. Ninth St., Brainerd, says: "I had been feeling miserable and sick all over for about a year and didn't know what was wrong with me until my kidneys began to show they were disordered. My feet would swell when I went to take off my shoes in the evening. I always had a tired and depressed feeling. I tried different remedies with no relief. I got Doan's Kidney Pills at the Skauge Drug Co. and began using them. After I had taken four boxes, I was cured."
Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Noakes had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.
Don't Fool Yourself
A man suffering from backache, rheumatic pains, stiff joints or sore muscles may laugh and say these symptoms of kidney trouble "don't amount to anything." It is folly to ignore Nature's warnings. Foley Kidney Pills give quick relief in kidney or bladder troubles and "it is better to be safe than sorry." H. P. Dunn, druggist. mwf
In a Restaurant.
"Walter, bring me a glass of water. I want to strengthen this soup."

TO FURNISH NEEDED DATA
Division in Department of Labor That Will Encourage Development of Building Announced.
Creation of a new division in the department of labor, to interest the nation in public works and private construction, was announced by Secretary of Labor William B. Wilson.
It will gather and distribute information to enable private industries to make the transition from a war to a peace basis without serious interruption, "obviating uncertainty or hesitation for want of the practical data upon which business judgment must depend," the official announcement says.
Louis F. Post of Chicago, assistant secretary of labor, in a statement asserting that the government does not look forward to any unemployment crisis and that there is no reason for alarm over the future, urged a revival of building to tide over the period of industrial reconstruction.
"Many municipalities throughout the country," Mr. Post added, "and many states as well have during the war either abandoned or suspended large public improvements. The federal government itself has practically abandoned its building program for the last two years."
"This accumulation of work should be undertaken at once as a means of providing buffer employment to carry us beyond the transition period and take up such unemployment slack as may result."

ORGANIZED LABOR SEEN AS FOE OF BOLSHEVISM.
"Organized American labor is the one and only great protection against bolshevism in the United States," said Attorney Francis J. Heney in his arguments for an increase in wages and betterment of working conditions of stockyard employees before Federal Judge Alschuler at Chicago, who as federal arbiter has been asked to increase the wages he fixed at a hearing early last year.
"Organized labor stands for securing improved conditions of working and living for the masses through lawful and peaceful means. Millions are driven by despair to seek these conditions by force and violence in Russia and elsewhere."

International Labor Court.
The British war cabinet is considering a proposal which may have an important bearing on future labor questions throughout the world, according to the London Express.
The proposal is to ask the peace conference, at one of its earliest sessions, to appoint a commission to inquire into the question of an international adjustment of conditions of employment and to submit plans for a permanent international court and organization to secure joint action in such matters.
"It is certain," says the newspaper, that the suggestion will be adopted, and it is also certain it will result in an organization, as part of an active league of nations, to prepare the way for international regulation of conditions of employment, which would be a death-blow to "sweating."

Return of the Craftsman.
The factory system nearly, but not quite, killed the craftsman in this country, where at one time he was second to none. Machine-made furniture, pottery, glassware and fabrics, vied designed and cheaply produced in great quantities, both ruined the workman and debauched the public taste. The problem is now to combine the factory system with individual craftsmanship and good design. It is already in process of being solved; and we would say that upon its solution incidentally depends the composure of that labor unrest of which we hear so much. Give a man work he likes and a fair wage, and he asks nothing better. Force him to become a slave

The Best Foundation for Stylish Cloths

No outer garment, however well cut or tailored, can fit over illfitting under-garments. A Munsing Union Suit, because of the perfect way in which it fits and covers the figure, is the ideal underwear and is preferred every by "women who know."

The fact that we sell more and more Munsingwear union suits every year is significant. There must be a reason. In truth, there are several. In addition to the perfect way in which it fits, Munsingwear is unusually fine in quality, remarkably durable, and surprising in its ability to stand trip after trip to the laundry without losing its shapeliness, perfection of fit or comfort.

Munsingwear for Women and Children sold only at

Murphy's
THE STORE OF QUALITY

Want Children Back in School.
"Go back to school," was the New Year's message sent by the children's bureau to the boys and girls of America who entered shops and factories to do their bit during the war.
"The future national army of peace is the school," says Uncle Sam, reads the message. "Every boy and girl should stay in school and train their minds and their hands in order that they may carry on well the work of the future. In school you will not only prepare yourselves for better jobs and higher wages later, but you will contribute to the future strength of the nation."

IDLE RICH BECOMING FEWER
Sons of Men Who Have Amassed Wealth Are Now Trained to Succeed Their Fathers.
It used to be said that it was only three generations from shirt sleeves to shirt sleeves. This meant that the man who worked hard and built up his own fortune by taking off his coat and "digging in" generally had a son who spent all his money in idleness and riotous living, and his son's son had to take off his coat and, like his hardworking grandfather, go to work to make his own fortune, a writer in the American Boy observes. But things are different in these days. The sons of rich men are trained to care for money, trained in their fathers' business so that should their fathers die they may be able to step in and continue the work, aided by competent assistants. Other young men, when they get through college, begin to work their way up so that they will know all the ropes of their fathers' business. Many a young man who is heir to millions has worked side by side with sons of poor laboring men, and worked quite as hard and for the same wages.

BANK BANDITS GET \$10,500
Six Armed Men Hold Up Institution at Detroit, Mich.
Detroit, Mich., Feb. 19.—Six armed bandits entered the East Side branch of the First State bank of Detroit, held up the cashier, clerks and several patrons and escaped with a sum estimated by bank officials at \$10,500.
The bandits escaped in an automobile.
The robbery took place on a busy corner in plain view of scores of pedestrians on the sidewalk.
How to Keep Well
"Keep the bowels open" is one rule of health recommended by all schools of medicine. Foley Cathartic Tablets cleanse the bowels, sweeten the stomach and benefit the liver. For indigestion, biliousness, bad breath, bloating, gas or constipation, no remedy is more highly recommended. Fine for stout persons. H. P. Dunn, druggist. mwf

HARDWARE
For the Farm and Home
Buying right goods means as much as paying the right prices
It is an invariable rule with us to make sure that both goods and prices are right. By centralizing our buying with thousands of other merchants we have attained a position where we are able to guarantee the quality of articles sold by us and the prices are the lowest it is possible to make. WOMAN'S REALM

"NEW ERA MOVEMENT"
PRESBYTERIAN CHURCH

Rapidly Shaping Itself for Effective
Action in This Local Presby-
tery of the State

GROUP SYSTEM MEMBERSHIP

War has Caused a Tremendous De-
mand upon the Different Benevo-
lent Agencies of Church

The New Era Movement of the Presbyterian church is rapidly shaping itself for effective action in this presbytery. Every church of this denomination is being organized by a group of six ministers acting as leaders in the churches.

The individual churches are being organized into the group system of membership and local people are serving as majors or group leaders. A meeting was held at Fergus Falls on Monday evening attended by the various presbytery group leaders and a report received from all the field. Every church was reported as favoring the new system and all were willing to assume the extra obligations which will be their privilege to bear for the new church year beginning in March.

The war has caused tremendous demands upon the different benevolent agencies of the church, and the boards are laboring to the utmost to meet the new responsibility. The buildings in the various missions which were destroyed through the war the higher cost of living and supplies, the demand for greater forces of men have all had a marked effect upon the treasures of the church.

The great purpose of the New Era is so to quicken the spiritual life of the members of the churches that they will feel the need of evangelization and the humanitarian need of bearing the burden of the less fortunate. Rev. P. B. Stevenson and Rev. W. J. Lowrie were the members in attendance from this part of the Presbytery.

CARD PARTY AND LUNCHEON

Prizes Worth While Offered at the
Entertainment at K. C. Hall on
Thursday Evening

Prizes worth while will be offered at the card party and luncheon at K. C. hall on Thursday evening, Feb. 20.

The committee makes this statement: "The American boys got over the top in France. We want to find out how many of the mothers of the boys can get over the top and win five pounds of coffee donated by the Brainerd Grocery Co.

How many of the dads can do what their sons did, bring home the bacon and win a home cured ham donated by the Schaefer meat market. And which of the young ladies can win a nice packet put up by Fritz and donated by J. W. Koop.

And finally a cash prize donated by Con O'Brien for the boys. Oh yes, Peter Oberst said he liked to fit the ladies with a pair of house slippers. Lots of fun, a good time and a luncheon. Don't forget Thursday evening at the Knights of Columbus hall."

Good Roads Projected

There are 79 graveled hard roads projected in the Babcock plan of state highways. Those particularly interesting to this locality are the following:

From St. Cloud through Royalton and Little Falls to Brainerd.
From Little Falls through Sauk Centre, Glenwood, Starbuck, Morris and Graceville to Brown's Valley.

You Know, But Sometimes Forget

Everybody knows an imitation is never so good as the genuine article. Foley's Honey and Tar stands at the top of the list of family remedies for colds, croup, whooping cough, bronchial and gripe coughs. W. L. Anglin, Antioch, La., writes: "I have used Foley's Honey and Tar 15 years. It is the best." H. P. Dunn, druggist.

NEIGHBORHOOD MEETINGS

Presbyterian Church Gatherings at
Homes of Mrs. Albert Erickson,
J. A. McKay, Walter Wood

This evening at the home of Mrs. Albert Erickson South Thirteenth St. there will be held a religious service conducted by Rev. F. B. Stevenson, of Crosby. Rev. W. J. Lowrie will have charge and Mr. Stevenson will give a talk on some gospel theme.

Thursday evening the service will be held at the home of J. A. McKay and will be in the nature of the regular prayer meeting of the church. Rev. Stevenson will have charge of the program at this service also.

On Friday night there will be a cottage prayer meeting at the home of Walter Wood, 1420 Oak street. The time for all these special week meetings will be at 7:45. The neighbors in the vicinity of these homes are given special invitation to be present and it is hoped that a large number will avail themselves of this opportunity for neighborhood service. All are invited.

"As You Like It" Club

The "As You Like It" club held a dancing party on Monday evening in K. C. hall. Music was furnished by Miss Fern Hitt, Wm. Tibbets and Walter Frampton. Prappe was dispensed at a booth by the Misses Marguerite Carmichael and Marvie Robinson.

Young Peoples Society

The Young Peoples society of the Norwegian-Danish Lutheran church will meet in the church parlors on Thursday afternoon February 20th. Misses Ida and Eva Peterson will entertain.

Entertains at Cards

Mrs. Fred Moerke entertained at cards Tuesday evening.

Prospects of Palestine

Palestine has never had a well-defined boundary except the sea on its west, but it is understood to be about 10,000 miles in extent. Much of this area is too dry and rocky for tillage; large parts are too dry even for cattle or sheep.

A Woman's Recommendation

Mrs. D. T. Tryor, R. F. D. 1, Franklin Av., Otsago, O., writes: "I realized so great a benefit from the use of one box that I feel safe in recommending Foley Kidney Pills to any kidney sufferers." They relieve backache, sore muscles, stiff joints, rheumatic pains and bladder ailments. H. P. Dunn, druggist, mwf

Little French Orphan, Who Saw Service at
Front, Adopted By Fighting American Writer

"Amerique, est-elle ver-ry fine, California bettaire," is the opinion of Marcel Dupuy. He may be a little mixed in his geography but his foster father, Captain Peter B. Kyne, well known as a magazine writer, isn't worrying about that. Marcel's mother died when he was a baby, his father was killed at Verdun, he made his way to the front and attached him-

self to the Seventy-ninth French infantry, then became mascot of the 143rd Field Artillery of California's "Grizzly" Division. Captain Kyne was an officer in the 143rd. When the Americans started home Marcel was a stowaway on the transport and Captain Kyne and his wife have adopted him. They are seen here in the captain's home in Berkeley, Cal.

SAN-TOX Scalp Wonder

San-Tox Scalp Wonder is what its name implies—the most wonderful scalp and dandruff remedy made. Will not injure the hair nor interfere with its growth, but on the contrary will greatly aid it by keeping the scalp clean and healthy. "Wonder" is the only word that can describe it.

MAKE THIS YOUR 1919 STORE

LIVE FOR WORLD TO COME

Inhabitants of Monasteries on Mount
Athos Take No Thought of
Mundane Things.

The long peninsula tapering southward from the busy city of Salonica ends in three irregular prongs like a misused trident of Neptune. On the end of the easternmost of these prongs, almost surrounded by the sea, stands the Holy mountain, or Mount Athos. It is given to men whose thoughts and doings are all directed with a sole thought of the world to come, so that the wear agony which convulsed this earth hardly caused a ripple in their quiet existence. The slopes of Mount Athos are covered with monasteries, large and small.

It is a little world in itself, this bit of ancient Greece. It lives to a quiet ordered tempo in an atmosphere where noise and strife are almost unknown, where all the little doings of the day move to a thousand-year-old ritual. There are men here who have not wandered a mile from their cloister in twenty years, willing prisoners of their own convictions. It is a place of kindly, dreamy life, free from heartburnings and jealousies, where each man is the equal of his fellow, despite the castes and ranks of the order—equal to a common infinite littleness before the majesty of divine omnipotence and eternity.

No woman is permitted to visit the sacred ground of the mountain, not that the order looks down on woman, but rather in tribute to her power to draw the thoughts of men from the eternal things. Despite the prohibition, however, there are rumors of women disguised who fled to Athos and found sanctuary there in the time of the Greek revolt and the war with the Turks. It is whispered, too, that the daughter of an English admiral accompanied her father on an official visit in the uniform of a midshipman.

Public Is Warned Against
Taking Substitutes
For Nuxated Iron

Physicians Below Say That Ordinary Metallic Iron
Preparations Cannot Possibly Give The Same
STRENGTH, POWER AND ENDURANCE
As Organic Iron—Nuxated Iron

United States Judge Atkinson Gives Opinion

Careful investigation by physicians among druggists and extensive has revealed the fact that there are thousands of people taking iron who do not distinguish between organic iron and metallic iron, and that such persons often fail to obtain the vital energy, strength and endurance which they seek, simply because they have taken the wrong form of iron.

Therefore, physicians mentioned below, advise those who feel the need of a strength and blood builder to go to their family doctors and obtain a prescription calling for organic iron—Nuxated Iron—and present this to their druggist so that there may be no question about obtaining the proper article. But if they do not wish to go to the trouble of getting a prescription for Nuxated Iron then be sure to look on the label and see that the words NUXATED IRON are printed thereon—not Nux and Iron nor any other form of iron, but Nuxated Iron.

The remarkable results produced by Nuxated Iron and its widespread sale (it being estimated that over three million people annually are today using it), has led to the offering of numerous substitutes, and these physicians say that health officials and doctors everywhere should caution the public against accepting substitutes in medicines and especially warn against accepting substitutes for Nuxated Iron, which, instead of being

Judge G. W. Atkinson

United States Judge G. W. Atkinson, of the Court of Claims, Washington, D. C., says: "It is without hesitation that I recommend Nuxated Iron to persons who in the stress of physical or mental labor have terminated the system to become debilitated, the body exhausted or the nerves run down. Nuxated Iron has restored my appetite and my vitality. I feel that I have dropped off the burden of months of toil in the few weeks that I have been following the very simple directions for the use of Nuxated Iron."

It is surprising how many people suffer from iron deficiency and do not know it. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take three five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength and see how much you have gained.

Manufacturers' Note: Nuxated Iron, which is represented and recommended above by physicians, is not a secret remedy but one which is well known to druggists. Unlike the older, inorganic iron products it is easily assimilated and does not irritate the bowels or cause constipation. The manufacturers guarantee successful and active results from its use, or they will refund your money. It is dispensed in this city by all good druggists.

For sale in this city by H. P. Dunn, Druggist

MEAT INJURIOUS
TO THE KIDNEYS

Take a tablespoonful of Salts if Back
hurts or Bladder bothers—Meat
forms uric acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off
with Dr. Edwards'
Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's never any sickness or pain after taking them. Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 30c and 25c per box. All druggists.

At the Best Tomorrow

Appearing for the first time in motion pictures in many months, George M. Cohan, the famous author, composer and theatrical manager is to be seen in a delightful picturization of his own Broadway success, "Hit-the-Trail Holiday," and Arterial picture, at the Best theatre tomorrow. To all who have seen Billy Sunday, the famous Evangelist, in action it is quite apparent, and no secret is made of the fact, that this is a "take-off" of the famous baseball revivalist, and that it proved an excellent re-introduction to motion-picture audiences for Mr. Cohan was evidenced by the laughter and applause that is accorded to it by all audiences.

At the Best Today

In her new Paramount photoplay, "The Vamp," dainty Enid Bennett has one of the best roles she ever has essayed on the screen. How she won her husband (in the reel story, not in real life) is excellently told in this great photoplay produced by Thomas H. Ince, which will be displayed at the Best theatre today.

Surprise Party

Mr. and Mrs. Becker, 508 6th Ave. Northeast, were pleasantly surprised by their friends on Tuesday evening. The evening was spent in music and a delicious lunch was served at 11:30.

Those present were: Mr. and Mrs. S. H. Wooden, Mr. and Mrs. B. Kelly, Mr. and Mrs. A. Shanks, Mr. and Mrs. A. H. Whitted, Mr. and Mrs. Shepherd, Mr. and Mrs. Stanley, Mr. and Mrs. Arthur T. Godton, and Mr. and Mrs. Meyer.

St. Valentine Party

Miss Norma Hagberg entertained at a Valentine party on Friday evening. Music was enjoyed and games were played, the prizes being won by Ione Rowley and Effie McCloskey. Dainty refreshments were served, covers being laid for nine.

JUSTICE IS WATCHWORD

That "Justice" is the watchword of the American people is gloriously demonstrated in their championship of the oppressed peoples of the Ottoman Empire. Here are statesmen, artists, publishers and business men as well as clergymen of every religious denomination, Gentile and Jew combining in one supreme humanitarian effort, that of reclaiming the subject races of the Near East from the cruel yoke of the Turk.

In this cause the Sunday Schools of America have undertaken to raise \$2,000,000 of the \$30,000,000 goal set for Armenian and Syrian Relief.

Sunday-school workers representing eleven leading denominations, the International Sunday School Association, mobilized in New York on October 7th for the two-million dollar campaign in the Sunday schools of North America.

Dr. George T. Webb, Secretary of the Sunday School Council of Evangelical Denominations and Superintendent of Religious Education for the Baptist Union of Western Canada, has been granted leave of absence from important work in Canada to serve as Executive Secretary for the entire campaign.

SIR WILFRED LAURIER

Not alone Canada, but all America mourns the loss of that gallant Canadian Sir Wilfred Laurier for many years a leading statesman of the dominion. He did much for the development of Canada, its industries, its resources. He espoused the cause of reciprocity with the United States and although defeated continued to cement friendship between Canada and the United States.

DYES FROM MOOR AND HILL

Plants in Scottish Highlands and Ireland Used to Produce Vast Variety of Tints.

We think of the preparation of color tints as having been essentially a German industry, though in reality the first discovery in that line was made by an English scientist, when in 1856 Sir W. H. Perkins introduced a beautiful mauve tint. Further back still English and Irish dyes depended for tones of yellow on the brown or greenish plant, the whin in Scotland, a plant of the gorse family.

Woad, too, was another valuable ally of the dyer. Fermented woad holds about two per cent of indigo and was used to obtain that color. Woad-dyed cloth was dipped into a brown liquor in order to obtain a rich green. So that three colors with a multitude of shades were possible at once. In the Scottish highlands hebeus are still collected in order to get purples, reds, brown and yellows so constantly needed in dyeing the clan and national tartans. In this connection Ptolemy tells us that the navigators came from Tyre and Sidon to the sea-cliffs of Ireland in order to obtain certain "mosses," or hebeus, for use in compounding the renowned imperial purples and Tyrian reds of their land. Walnut, dyers' green weed, barberry, yellow bedstraw, buckthorn, sea buckthorn, and corn marigold are among the plants of the Irish country-side which have been used as dye-stuffs by past generations.

When Traveling.

In preparing a lunch for a journey, bake the bread in empty baking powder cans. After slicing and spreading, replace it in the cans, put on the covers, and the bread will be as fresh at the end of the trip, though it may be several days, as it was when first baked.

Says it is the Best in the World

Are you looking for a safe, reliable remedy for coughs, colds, croup and whooping cough? A. H. McDaniel, Box 51, Lindsdale, W. Va., writes: "I am glad to tell you that Foley's Honey and Tar is the best medicine in this world. I had a severe cough. Someone recommended it and before I used half a bottle I was better. H. P. Dunn, druggist."

STANDING ARMY OF 175,000 MEN

House Eliminates Senate Provision for Military Force of 540,000 Regulars.

TWO BILLS ARE PASSED

Congressmen Declare Senate Measure Does Not Affect Present War-time Force Under Selective Service System.

Washington, Feb. 19.—Legislation providing for a temporary military establishment of about 540,000 officers and men during the fiscal year, beginning next July 1, was eliminated from the annual army appropriation bill in the house, after passage of the senate bill for resumption of voluntary enlistments in the peace-time army, which would be restricted to the maximum of 175,000 men, authorized in the national defense act of 1916.

The senate measure now goes to conference and will become effective upon approval by President Wilson. The army bill also was adopted by the house without a record vote. It goes to the senate with its completion there at this session regarded as doubtful. It carries a total of \$1,979,000,000 for the war department for the 12 months after June 30.

War Time Army Unaffected.

It was explained by house members that the senate bill did not affect the present wartime army, which under the selective service act, must be demobilized within four months after peace is formally declared. Decision of the house to consider the senate measure was by a vote of 172 to 162. Chairman Dent, by direction of the house military committee, has asked for a rule to make the temporary army legislation in the regular appropriation bill in order but the rules committee took no formal action on the request.

Instead it voted 7 to 5 to report a resolution giving the senate measure the right of way. Ten Republicans joined with 102 Democrats in voting for the resolution in the house after a sharp debate.

One Year Enlistments Planned.

Before adopting the senate bill, the house amended it so as to provide that recruits should be enrolled in the regular army for only one year without further service in the reserve. Their pay was fixed by another amendment at \$30 a month, the wartime basis in the army.

Republican Leader Mann in explaining the votes of 155 Republicans against adopting the rule to consider the senate bill, said opposition was not against the bill, but was a protest against the failure to consider a temporary program that would enable the quicker return of troops from Europe.

The recruiting bill itself was finally adopted without a dissenting voice.

MINING ENGINEERS MEET

New President Favors Closer Cooperation With Canada.

New York, Feb. 19.—Suggestions that permanent committees be named by the American and Canadian institutes of mining engineers to consider problems of mutual mining interests, including mining prospects in Mexico, was made here at the continuation of the 119th annual meeting of the American institute.

Horace V. Winchell of Minneapolis, newly elected president, outlined differences between the mining laws of Canada and this country and expressed the opinion that a plan of co-operation between the two institutes would improve mining conditions in both countries.

CONDITIONS MUCH BETTER

Boilermakers at San Francisco Have Returned to Work.

San Francisco, Feb. 19.—With work resumed in four shipyards in the San Francisco bay district as a result of union boiler makers having returned to work under pressure from their international officers, the strike situation was regarded as more composed.

Deportations Are Defended.

Washington, Feb. 19.—Aliens found advocating destruction of property or overthrow of the government by force will be deported under the provisions of the Immigration act of Feb. 5, 1917. This announcement was made by Secretary of Labor Wilson in a letter sharply rebuking Micrometer Lodge 450, International Association of Machinists of Brooklyn, for protesting against the deportation of 58 "alien radicals." The secretary denied that the aliens were being deported without due process of law.

Receives Fair Challenge.

Chicago, Feb. 19.—Although he only regained the three-cushion billiard championship on Saturday night, Alfredo De Oro has received four challenges. It was announced, when one from Pierre Baupome of Milwaukee arrived. Three were ahead of him—Gus Copulos of Detroit, Bob Cannelax of St. Louis and Clarence Jackson of Kansas City. In the order named Friends of De Oro said he would consider the challenges in the order in which they were received.

LONG DEBATE DUE OVER ARMY BILL

MANY SENATORS TO TAKE THE OPPORTUNITY TO TALK OF MILITARY CONDITIONS.

MEASURE MAY BE DEFEATED

Minority Leader Mann Has Joyous Time With Larsen of Georgia Who Seeks to Put a Curb on Discussion.

By ARTHUR W. DUNN.

Washington.—Unless all signs fail the debate on the army appropriation bill is going to be long drawn out. The whole army condition is going to be threshed out thoroughly, particularly in the senate. It is somewhat of a surprise to those who want to avoid an extra session that the army bill has been delayed so long, for the talk upon it may defeat it and if it is defeated an extra session will be necessary in order to get money to support the army. It is evident that many senators are waiting for a fitting opportunity to say what they think about army conditions and they will take an opportunity to do so when the regular military appropriation bill is before the senate. On several occasions the military bill has been the last to be considered and once or twice it has failed to pass before congress adjourned.

Minority Leader Mann was in his element the other day. A comparatively new man, Larsen of Georgia, decided that there was too much talk going on in the house, and announced his idea of stopping it by objections. Chairman Padgett of the naval committee, who was piloting the naval appropriation bill through the house, urgently requested Larsen to desist, saying that long experience has taught him that nothing could be gained in that way. But Larsen persisted and the first person he ran afoul of was Jim Mann. "I hope the gentleman from—" and Mann paused for a little time before adding "I do not know from what state he comes," and then he paused again until some member could interject "Georgia," and then added: "I hope the gentleman from Georgia will keep his nerve, but he will not."

Then Mann went on to talk for some time and finally made the usual motion "to strike out the last word," which allows a member to speak for five minutes. Larsen immediately objected and raised the point of order that Mann was not speaking on the motion to strike out the last word. Mann blandly remarked that the point of order was well taken and then moved to strike out the entire paragraph which he wanted to discuss, and in his most sarcastic way, turning to Larsen, remarked: "This is like taking candy from children."

As Mann predicted, Larsen did not keep his nerve, for he soon found out that the course he was pursuing would tend to defeat rather than to rush legislation.

"What is the remedy?" was a query put to the senate generally but more particularly to Senator Thomas of Colorado by Senator Kenyon of Iowa. He was speaking of the lack of employment in this country which was causing so much apprehension, and continued: "If there is not some remedy in carrying on public works, what is the remedy? The remedy is not to make speeches about it."

"Oh," remarked Thomas, "making speeches is a remedy for nothing, especially in the senate of the United States."

"That is the only way we remedy anything here so far as I know," continued Kenyon.

"Unfortunately," Thomas replied, "that is the only way in which we transact business here. The other house votes and does not talk. We talk and never vote, and of course I am just as guilty as anybody else."

"The learned senator from Colorado always talks very interestingly," interjected Vandaman of Mississippi.

"Interestingly and too much," acknowledged Thomas.

This talk of employing 500,000 men on government roads recalls the laughter which greeted the celebrated "Gen." Jacob S. Coxey when he marched his commonwealth army to Washington back in 1894 and demanded that the government issue \$500,000,000 in bonds and spend the money on roads so as to furnish employment for the hundreds of thousands that were then without work and living largely at the soup kitchens. It is quite probable that within the next five years all of \$500,000,000 will be spent on roads and most of it will go into labor.

An agricultural development of recent years, the dehydration or drying of fruits and vegetables, is attracting considerable attention from the scientists of the department of agriculture. These scientists declare that this drying process is cheap and that it affords a very good method for preserving foodstuffs from loss through rot, practically accomplishing the same thing for vegetables that freezing accomplishes for meat.

First Thing to Learn.

About the first thing to learn about a carburetor is to let it alone as long as it is working properly.

COMING BACK TWICE. IT'S KID GLEASON

BY H. C. HAMILTON.
 (Staff Correspondent, United Press)

CHAPTER VI
 Gleason ended his active playing days in 1906, when he occasionally went upon the field to fill in for a player ordered out of the game or injured. In later years he did some playing, but so little that his name scarcely appears in later day records.

The next engagement of this famous old war-horse was in Chicago, when Charles Q. Comiskey of the White Sox hired him as coach. What he has accomplished there only Comiskey and Clarence B. Rowland know, aside from Gleason himself. The latter refuses absolutely to discuss his connection with the White Sox after Clarence Rowland succeeded Jimmy Callahan as leader of the Chicago team but it is sufficient for the average fan to know that when Gleason was called from retirement by Comiskey to assist Rowland, the White Sox immediately kicked themselves loose from the kinks and acquired a reputation for aggressive, swift-thinking baseball, something they hadn't done before.

So much for the active playing days of Kid Gleason. What he has accomplished more recently and his sudden elevation to a bright spot in the firmament of the national game amounts to a great deal more in the estimation of the fan than any of his batting averages while a second baseman with the Giants or Orioles or as a pitcher with the old Philadelphia team that Harry Wright tried so hard to carry away pennants with.

Shortly after Charles A. Comiskey announced that Jimmy Callahan, former outfielder and pitcher, would no longer manage the White Sox, he unloaded on a startled public the news that Clarence Rowland, a minor leaguer in the truest sense of the term, would lead the famous club. He purchased Eddie Collins and Joe Jackson and began to build up a team with which, in his hopes, he would win another world's championship pennant to float from the flag pole in Comiskey field.

There is the real romance of the Gleason life—the secret of which hasn't been told fully and perhaps will not be. Certain bits of it, however, have filtered out and will show just how much Gleason did to help the Comiskey outfit to its goal during those dark days at the fag end of the 1917 season—days when it seemed that a season's good work must

fail and the heart of Comiskey be made heavy by the knowledge that he had failed with the greatest team he had ever pieced together.

Canning.

The French were the first people to preserve fruits and vegetables. This was away back in 1810. The French government offered a prize for the best method of storing foods during the winter months, and among the solutions was the canning process. America invented the fruit jar and brought the canning industry to be one of the largest and most important in the world, running into billions of dollars annually.

My Back! Ouch!

Why have lumbago, anyway? You can keep your system free from the poisons which cause it. Simply keep your bowels empty. Don't let food waste. Be in them to ferment and fill your blood with poisons. You can't expect your kidneys, lungs and skin pores to eliminate the poisons from your system if you do not remove the cause of the poisons.

Your druggist has a product called SALINOS, which will completely empty the bowels without discomfort to you. It is pleasant in taste and in action and creates no habit. It is fully effective if taken in cold water. Get a bottle. Be safe. Take it in cold water tomorrow morning.

CORP. H. M. RYAN HIT IN SIX PLACES

Poisoned Explosive Shell of the Germans Nearly Sent the Brainerd Man to Kingdom Come

SHRAPNEL NEAR HIS HEART

"No Shell Shock for Me", said Henry—Had One Pay Day in Eight Months He Said

Corporal Henry M. Ryan, Co. F, 58th Infantry, 4th Division, knows what it means to be hit by an explosive shell fired by a German battery. The Brainerd boy who formerly worked in the foundry and freight office here, left Brainerd Sept. 21, 1917 for Camp Dodge and was trained there and at Camp Pike, Ark., Camp Green, N. C., and then assigned to the 4th Division and landed in Europe on May 23rd.

As he was leading his detail at Verdun on Sept. 29 last year the shell nearly blasted Ryan into kingdom come. He remembers hearing the crash and of being blown up in the air and thirty feet back and coming down a mass of blood and wounds. Then he turned dead to the world. Some were killed about him. Checked up at Field Hospital No. 5 he was found to be wounded in half a dozen places got first aid and was then sent to Base Hospital No. 35.

Scraps of red hot, poisoned metal had ripped wounds in him. A piece of shrapnel struck above the right knee, one in the right leg, one in the stomach, another perforated his intestines and exposed some, his left thumb was torn off and another piece a slug in size tore through his package of home photos and letters and lodged four inches from his heart. The Germans poison their high explosive shells and each shell splinter would lead to be doped with serum to counteract its poisonous effect. Twenty-seven big stitches were required to patch up Ryan.

Corporal Ryan and his detail were in a wave leading a charge and his little detail was about wiped out at 11 in the morning. The corporal has some of the shell splinters as mementoes and is being given further medical attendance at Fort Snelling base hospital.

"I've still got some splinters in side of me," said he, "and they've got to come out."

"And let me tell you" said he, "I never put in a claim for shell shock nor did any of my men remaining. That shell shock business is a funny thing. It was wonderful to see what an improvement there was in the shell shock section in the hospitals after the armistice was signed."

Corporal Ryan said prices were high at the "Y" and that all he got free was some writing paper.

"Many of us could not buy anything. We had no money. I had one pay day on July 4th in my eight months in France. The K. C. B. Red Cross and Salvation Army won our gratitude," said Corporal Ryan.

He fought at Chateau Thierry and in the Argonne woods near the "Lost Battalion." On August 6 while searching out machine gun nests in the Argonne woods a hun sniper, ammunition exhausted, tried to cave in Ryan's head with the butt of a gun. Providentially the German came armed against a tree and the rifle backed the tree and then gave Ryan a glancing blow which knocked him out for a few minutes. He got up and continued leading his seven men when a machine gun bullet clipped him in the leg and knocked out his under pinning.

The corporal's squad were supplied with rifle and hand grenades. They preceded an infantry charge getting the first smash at snipers and machine gun nests. At Chateau Thierry eight bullets sang through his wet pack of 100 pounds. The blanket, slicker coat, half of a shelter tent, shirt, clothing, etc., in the pack stopped the rain of lead.

Rifle grenades are attached to the rifle and fired from the hip or ground. The recoil is terrific. He remembers one sniper getting several of his men until a Swede spotted the hun in the trees.

"I'll get that feller if I bust a lung," said the Swede private, and contrary to the appeals of his comrades, he hoisted rifle and grenade attachment to his shoulder and fired at the tree. Down came German, tree and all, including also the Swede whose shoulder was kicked out of joint.

Streams were bridged by felling trees across them. Often the men would be four days without food or water.

"It's all in the war game," said Corporal Ryan philosophically. He came to Brainerd to attend the wedding of his cousin Miss Mabel Louise Wilmar to George Samuel Dahl.

Ryan is cheerful and as pugnacious as ever.

"I don't begrudge going," said he. "I was glad to fight for my country, to do my part for Uncle Sam."

SUNDAY SCHOOL SOCIAL

Successful One Given by the Presbyterian Church at Odd Fellow Hall

One of the most successful Sunday school socials given by the Presbyterian church was held Tuesday night at Odd Fellow hall. There was an attendance of about 200, Sunday school children, their parents and teachers.

A splendid program was furnished by members of the church and Sunday school with the assistance of several numbers from the outside.

Rev. F. B. Stevenson of Crosby, was impressed with the number and enthusiasm of those present and spoke of the necessity of building a church that would adequately house all such social affairs. He said that the Presbyterians had one of the most beautiful building sites in the city and the value of a new church would be great in arousing a new church spirit. The one thing needed, he told the children was for every one of them to cooperate with parents and teachers for this purpose. He hoped that another twelve months would tell the story of a beautiful new church on the South Side.

Games were played by the children led by the teachers and refreshments were served.

The Primary and Junior departments are planning on having a party for the younger folks in the near future.

The members and teachers of the Sunday school feel very grateful to Mrs. Nellie Reese, chairman of the refreshment committee and to Miss Georgia Brown of the program committee, for the splendid spirit in which they worked.

DE PALMA SPEED KING AT DAYTONA

Sets New Mark of 24.02 for One Mile On Famous Daytona Beach Course

DROVE AN ALL-AMERICAN CAR
Daytona Daily News Extra Sent the Brainerd Dispatch by Dr. Walter Courtney

Dr. Walter Courtney, who with his family is spending the winter at Daytona Beach, has sent the Dispatch the Daily News of Daytona containing an account of Ralph DePalma's feat breaking the mile and kilometer records.

The mile was made in 24.02 seconds, breaking Burman's record of 25.40 seconds. The kilometer was negotiated in 15.86, breaking Burman's record of 15.88 seconds.

Burman in 1911 used a German car, a Blitzen-Benz of 200 horsepower. DePalma hung up the new world records with an All-American car, a Packard special twin-six with a piston displacement of 304.8 cubic inches, or more than 400 inches smaller than the German car. DePalma's car contains an aviation engine.

At the tremendous speed attained the automobile is practically a projectile. Air resistance comes, not from the piling up of air in front of the car, but from the vacuum which is created behind. This vacuum retards a racing automobile. To overcome it, DePalma's car has a long tail, resembling the point of a bullet. This practically closes the air gap left behind. The body is of aluminum. The motor is a complete aviation engine with propeller removed and an electric starter put in place, as nobody could crank it by hand—three men are needed to crank a Liberty motor when fitted with aircraft propeller.

Daytona Beach is known among automobile enthusiasts the world over. At low tide the beach measures 300 to 500 feet in width, it is almost like asphalt in solidity, perfectly smooth and at every tide Mother Nature irons out any imperfections. The sand is largely composed of the shells of the coquina clam.

Royal Arch Masons

At the annual election of Brainerd Chapter No. 42, Royal Arch Masons, these officers were elected:

H. P.—Jeph Thompson.
K.—Erick Westberg
Scribe—C. A. Nelson.
Treasurer—Milton McFadden.
Secretary—G. W. Chadbourne.
Captain of Host—Levi Johnson.
R. A. Captain—Lester Hitt.
P. S.—A. O. Tummas.

Card of Thanks

We wish to thank our friends and neighbors in Oak Lawn township, and our friends in Brainerd, for the kindness and sympathy extended us in our recent bereavement when wife and mother, Mrs. Nellie Hartman, was called to her reward.

ELMER E. HARTMAN and family.

OLD PAPERS—5c BUNDLE

"FATHER AND SON" SUPPER IS GIVEN

To be Made an Annual Affair at the First Methodist Church. First One is Successful

85 MEN AND BOYS ATTEND

Addresses by Local Speakers and Two Orators from Wadena, Much Enthusiasm Created

So successful was the first "Father and Son Supper" given at the First Methodist church Tuesday evening, 85 being present, that it will be made an annual affair of the church, bound to grow in interest and enthusiasm.

The supper served by the ladies of the church was a most satisfying one and they won much commendation for their culinary efforts. The tables were decorated with flowers and it looked like a big family gathering.

After the supper came the short addresses by local men and invited speakers from the outside.

Musical Numbers

M. B. Scherick presided as toastmaster. A prayer preceded the supper and an earnest prayer by J. H. Noble closed the meeting.

The musical numbers were especially charming. There was a duet by Miss Carol Bird soprano and Miss Elizabeth Weimar contralto. Later each sang a solo. Miss Grace Atkinson was accompanist for the first two songs, Miss Weimar for Miss Bird's solo.

O. Skauge

O. Skauge, responded to the subject, "The Kind of a Boy I'd Like." He made a witty speech and showed himself at ease no matter how many interruptions followed. He did not want a perfect boy or his father would be out of place. Daddies nowadays expected too much from their boys and often forgot they had been boys themselves. He wanted the ideal boy to be a good red-blooded American who had accepted Christ as his savior.

Henry Cunningham

Henry Cunningham's subject was "The Kind of a Father I'd Like." A boy liked the father who was a companion a real chum who showed his interest in what a boy was doing, who would solve problems with him, go to church and Sunday school with him. For real power and earnestness and simple eloquence young Cunningham's response was one of the most gripping and interesting ones.

John Leak

John Leak's subject was "The Kind of a Class I'd Like." The ages, said Mr. Leak, should be from 17 to 23. Fifty would make an ideal class. The attendance should be 95 per cent and the same percentage should govern in being on time. He pleaded for boys who would discuss the lessons intelligently. Such a class would be a power in any community.

H. F. Michael

"The Kind of a Sunday School I'd Like" was the title of H. F. Michael's talk. Mr. Michael had attended the centenary exercises in Minneapolis and referred to the proceedings there and to the recent Peace conference.

"Forget about the Sunday in Sunday school," said Mr. Michael, "call it instead a church school and religious instruction. He wanted the influence of more men in the Sunday religious education work."

"We have a message for the men and the boys," said Mr. Michael. He paid a tribute to President Wilson whose high ideals, expounded in the church school and pulpit, was lifting up humanity.

Rev. C. H. McCrae

Rev. C. H. McCrae pastor of the First Methodist church of Wadena, gave the address of the evening on "Brains in Sunday School." We are each the result of our thinking, he said. Thought to the mind was as blood is to the body. Then in logical sequence he traced a color scheme of thought, from the dark kind of Mohammedanism and the Nietzsche school of philosophy to the patriotic national colors of America.

In his discussion Rev. McCrae dwelt on the Sinn Fein movement in Ireland, "We for Ourselves" and he gave no sympathy to their aims. He characterized the Sinn Fein movement in Ireland as a yellow stream in British national life and said that while the huns had their hands on the throat of Britain, the Sinn Feins were hobnobbing with the Germans. He praised Mayor Ole Hanson, Seattle executive who showed fifty Bolsheviks the road back to Russia.

Rev. McCrae at the close paid a tribute to America. Born in Ireland, he appreciated what America had done for him. The Centenary movement was described and the extension of church work.

Dr. Charles Pierce

Dr. Charles Pierce practicing physician of Wadena who in his youth played baseball, gave a short, straight from the shoulder talk and urged church attendance tithing, support of the minister, attendance of

men at church and prayer meeting and Sunday school. He had seen the light four months ago and had induced others to take a stand for the church.

"I had a hundred per cent batting average when it came to attending church suppers," said the doctor "and left it to the mothers of the church to attend service and Sunday school. Then I got to see the light and mended my ways. I induced others to attend church to speak for Christ."

Rev. E. A. Cooke

Rev. E. A. Cooke spoke of the "Kind of Men He Would Like in Church." He was satisfied with the hopeful general average and was not looking simply for pious men. He did wish though to be backed by his congregation, all headed for the things that are right.

"Bigger than the war game of killing people is that of saving people. We must get our nerve in religion," said he in closing.

MRS. CUYLER ADAMS IS LAID TO REST

Was Daughter of the Late Col. J. B. Culver and Wife of Cuyler Adams, of Deerwood

SHE NAMED THE CUYLER RANGE

Was a Notable Woman, a Constant Reader, an Eager and Interested Traveler.

(Duluth News Tribune)

Funeral of Mrs. Cuyler Adams, daughter of the late Col. J. B. Culver, and wife of Cuyler Adams, explorer and developer of the Cuyuna range, was held yesterday afternoon. She was buried at Forest Hill cemetery.

It was Mrs. Adams who conceived the title of the Cuyuna range by combining the first syllable of her husband's name and that of his dog, Una, which went with the master on his trips to what is now Deerwood.

In referring to the life of Mrs. Adams, Rev. A. W. Ryan of St. Paul's church, who conducted the funeral service, said:

"Mrs. Adams was a noble woman. Educated in the east, married at an early age, a constant reader and an eager and interested traveler, she brought unusual natural endowments to a high stage of refinement and culture. She was a born patrician, but joined with that interest in the practical side of life. Her domestic manage was enviable and her home a refuge from toil and the natural tedium of living. Her rich personality and wide experience made her a hostess of rare type and infinite variety."

"Like all people of strong character came into slight contact with her, she made an impression which never faded and people who only realized that she was a personage above the ordinary."

"For many years she lived what seemed to be an ideal life. The summers were spent on the borders of quiet and lovely Remo lake. The winters in part in Duluth, or mostly journeys to the southland, or even around the world. Over five years since she lost her son, Francis Salisbury, a geologist of remarkable promise in his chosen field of work. To commemorate him and his promising professional career, she with her husband established the \$10,000 endowment for St. Paul's church, to maintain and improve the choir music which Salisbury loved so much."

"It is given to few women to arouse the ardent respect and admiration that always followed Mrs. Adams, but her high-mindedness, her stability and strength of character, her practicality and culture marked her as unusual among women. Her friends are stunned by the tragedy of her sudden and too-early departure."

Besides her husband the deceased is survived by two sons, Culver and Robert; two brothers, Charles and Frank Culver, and two sisters, Mrs. Kate Whitelaw and Mrs. J. H. Simon.

NOTICE

The Home Service Section of the Brainerd Chapter, American Red Cross, which for the past year has had headquarters at the Chamber of Commerce, and has given out information to parents and wives of soldiers concerning their whereabouts their allotment and allowance and other information needed, will be conducted at the same place hereafter, and we are ready to serve and help you in any way possible in accordance with the information that we receive from the Headquarters. Remember the hours, from 1 to 3 in the Chamber of Commerce rooms.

REV. ELOF G. CARLSON, Chairman.

ROLL OF HONOR

Private Frank Willing of St. Paul, lately from Camp Logan, Texas, was a guest of his brother, Arthur B. Willing.

Gus Sands is again home with his wife and family at Brainerd, having received his discharge from the service and has been looking over their farm north of Pillager preparatory to putting it in crop this spring.—Pillager Herald.

Top Sergeant Melvin M. Hall, has received his honorable discharge from the army and arrived in the city yesterday. Sergt. Hall has seen eighteen months service, leaving Brainerd in September 1917, first being in a machine gun company at Camp Dodge and later in a training company at Camp Pike and Camp Grant where he was drilling recruits. While at Camp Grant Sergt. Hall with several other top sergeants were offered lieutenant commissions, but all refused as the end of the war could then be foreseen.

Private Edward Hedstrom has returned from overseas duty. He is a brother of Eloy Hedstrom of the Eagle Provision Co.

PARKER WAITE

Pays Visit at Pillager, Where He Formerly Made His Home—Speaks of Canadian Home.—(Pillager Herald)

Parker Waite of Bath, Lenox County, Ontario, who, with his wife and mother are visiting their daughter, Mrs. Fremont Turcotte of Brainerd was a caller on the Herald Thursday last and chatted the rag over the good old times we once enjoyed together in Pillager before he emigrated to Canada.

Especially the time on one Fourth of July when Parker edited the Herald on a large float. Mr. Waite while a resident of Pillager was one of our best boosters and he and our friend, Win. Cox, now deceased were the men who forced the building of the Pillager creamery now of so much benefit to the village and farmers of the Crow Wing valley.

Since moving to Bath, Ontario, Mr. Waite has become leading booster

This company has no "watered stock." For every dollar's worth of stock or bonds issued a dollar has been invested in the property.

IN AGONIZED SILENCE

German Assembly Listens to Reading of New Terms.

Herr Erzberger Announces Conditions and Members Realize Germany Is Crushed.

Weimar, Feb. 19.—The party speeches in the national assembly suffered a rude interruption by the outcome of the new armistice negotiations. The general outlines of the new terms were known early, and it was no surprise when President Fehrenbach announced that the speeches and arguments would be deferred, so that Matthias Erzberger, head of the German armistice delegation, might give a personal explanation of what happened between his departure for Treves and his unexpectedly quick return.

Herr Erzberger, noticeable wrought up and laboring under a strain, began with the announcement that the delegates were entitled to know at the earliest moment the full details of the negotiations. He then read the terms and the house listened in almost agonized silence. A slight stir or noise brought angry hisses. The assembly had never been one fifth so still.

The members of the house stirred uneasily as he finished and stopped for breath. Before continuing his explanation Herr Erzberger interjected: "It is my wish that you may never have the fateful hours I have had. We on the armistice commission have had to bear untold responsibility."

DECLARES GENERAL STRIKE

German Anarchists Active in Rhine Industrial District.

Copenhagen, Feb. 19.—A general strike has been declared in part of the Ruhr industrial district along the Rhine and the Spartacists have occupied Bochum, Hamm and a number of other places, according to a report from Berlin.

The Spartacists are reported to be fortifying the waterworks and electric power houses at Düsseldorf, Muhlheim and Hamm.

FOUR TEXAS BANKS CLOSED

Action Follows Suspension of National Institution.

Dallas, Texas, Feb. 19.—Following the closing of the Citizens National Bank of Garland, Texas, by order of R. S. Collier, national bank examiner, four small private banks were ordered closed. T. N. Hickman, president of the Garland bank, was a heavy stockholder in all of the private institutions.

More Incident in Cat's Life.

You're not obliged to believe the following story, nor even strain your imagination over it. The Bath (Maine) Times tell it. About four years ago a Bath man went smelt fishing off a wharf on the riverside and when he returned leaned up his pole on which was his fishing line in a corner of the kitchen. Attached to the hook was a minnow for live bait and this was wriggling on the hook, when the man's pet black cat espied the fish and made for it. Before the owner could prevent, the cat had swallowed the fish and the hook. It was impossible for the man to pull out the hook without killing his pet so he cut the line, leaving the bait and the hook and a small portion of the line within the cony. The cat seems to have assimilated the hook, for she never has shown any symptoms of discomfort from her strange meal and is still alive and in apparent good health.

DAILY MARKET REPORT

Minneapolis Grain.
Minneapolis, Feb. 19.—Oats, May, 59¢; Rye, February, \$1.32; May, \$1.37; Barley, choice, \$4.89; Corn, No. 3 white, \$1.20; No. 3 yellow, \$1.24; No. 4, \$1.26.

French Desire Intervention.
Paris, Feb. 19.—Renewed pressure was being exerted on the supreme war council for an immediate intervention in Russia, it was declared from an authoritative source. The French were said to have urged again that military action be taken against the Bolsheviks on a large scale, while War Minister Churchill's proposal—which has not been made public—was understood to contemplate proclamation of a state of war, if necessary. The American position in opposition to a military policy is unchanged.

CHAIRMAN OF PRICE BOARD

Secretary Redfield Appoints George N. Peek of Moline, Ill.

Washington, Feb. 19.—George N. Peek of Moline, Ill., former member of the War Industries board, has been chosen by Secretary Redfield as chairman of the new government price conference board. Mr. Peek will select his associates. Through the committee the government hopes to aid industry to get back on a peace time basis with increased business through lower prices.

Laud League Covenant.

London, Feb. 19.—Two leading British legal authorities, Lord Buckmaster and Baron Parmoor, who have taken a prominent part in advancing the cause of a league of nations, expressed satisfaction with the covenant of the league of nations as laid before the peace conference. Lord Buckmaster is a former Lord Chancellor and Lord Parmoor is the judicial member of the privy council. Lord Buckmaster says the scheme is sufficient and that he believes it will endure.

NONE TOO POOR TO HAVE A PART

Every American Citizen Should Join Movement to Help Nation Finish War Job.

JOIN SAVING SOCIETY

They Furnish Definite Agency to Promote Americanism and Crystallize Habit of Thrift—Furnish Stimulant for Sale of Securities.

This is the question some 286 county chairmen and their assistants will ask of several million people in the six states of the Ninth Federal Reserve District during the week of February 17 to 24—officially known as Savings Society Week.

To everyone who answers this question in the negative, some member of the organization will put the question—"Why not?" And the burden of proof will then be upon the individual to show why, as a good American citizen, he has not taken this first important step in helping his Government finish the job.

"We believe that there will be organized in this district during Savings Society Week at least 20,000 War Savings societies," declared War Savings Director J. H. Meyerling in a report on the work made to Chairman A. R. Rogers. Mr. Meyerling explained that practically all chairmen had been appointed and in the big majority of counties were already on the job. He said that literature necessary for the explanation of the district's organizing campaign would be in the hands of the workers in plenty of time, and that from the report of his field workers he felt very sure the men on the firing line would be ready to start the campaign with a rush on or before Monday, February 17.

Societies Are Necessary.

Dr. George N. Bauer, Vice Director of the District War Savings Division, upon his return from a tour of some Minnesota and South Dakota towns, stated that he was confident the results of the Organization Week would be satisfactory. He stated emphatically that in his opinion the people of the district would respond to the appeal of their Government, and that all that was necessary was to make them understand that the appeal was urgent. He said his experience had convinced him that the people were ready to do their share by eliminating waste, saving and buying stamps, and that the principal job which the organizers had before them for the present was to convince people of the value of War Savings societies and the necessity of organizing them.

"The Thrift campaign is an all-American movement," said Dr. Bauer. "No one is too poor to have a part, none so well off he can be indifferent."

"Everyone who is concerned in the business of living is interested in the Thrift campaign. The Savings society is the mechanism for making the campaign effective. It brings the campaign to all, not to one or two."

Why Savings Societies.

"I am asked many times why it is necessary to have these societies," said Dr. Bauer. "I have summed up the vital reasons under the following five heads. It is necessary to organize War Savings societies, because—

"1. They furnish a definite plan for bringing many important economic problems to the attention of the community.

"2. They furnish a definite agency to promote Americanism. At the moment there is nothing more important than that people should be awakened as to the dangers which threaten our form of Government and impressed with the importance of loyal support of our institutions. This can be done more effectively through societies than by working among individuals.

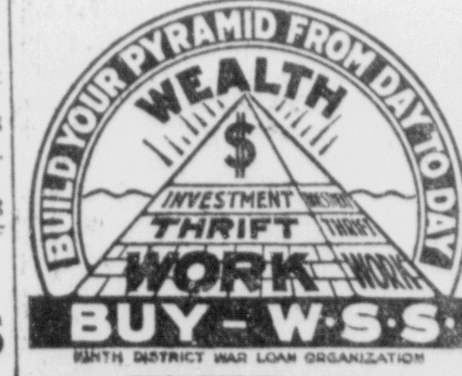

"3. They furnish a means to crystallize habit of Thrift and furnish a stimulus for the sale of Government securities.

"4. Through group societies it will be possible to bring to the attention of people everywhere information and inspiration in the form of letters, pamphlets and the spoken word.

"5. The sale of War Savings stamps, which is the immediate result desired from Thrift education, will be increased during a long period of time if carried on through societies because the individual will perform his duties more faithfully if encouraged and checked up by associates interested in the same cause."

These are some of the reasons why the national and district War Loan Organizations have determined upon an intensive campaign of organizing War Savings societies as the basis for the 1919 selling campaign.

WILSON'S SUCCESS HANGS IN BALANCE

SOME OF PRESIDENT'S WARMEST FRIENDS IN DOUBT ABOUT HIS FOREIGN MISSION.

HOPE HE'LL STAY AT HOME

Interest Lost in German Propaganda and Security League Investigations—Periodicals Being Started for Those Who Have Been in Service.

By ARTHUR W. DUNN.

Washington.—There is still considerable doubt expressed as to whether or not the president will make a success of his foreign mission. Some of his best friends are apprehensive and feel that he is endangering his popularity and will mar his place in history. Of course they all say that it depends upon how successful he is in carrying out his ideals for curing the ills of the world and making people happy and contented and satisfied with their governments. At the same time there are many practical men who seem to think that human nature, not having changed to any extent since the dawn of history, is likely to continue along the same line, and that the turbulent peoples of central Europe are not likely to become quiet through the decrees of any peace conference. There is also a strong impression that the United States will be far aided if it has to engage in governing, policing or in any other manner enforcing the rules and regulations of the peace conference upon foreign nations.

It is because the plans of the president have become considerably enlarged since he went to Europe that his friends fear for the entire success of his mission. Many of them have been privately expressing the hope that he will find a way to leave the settlement of all questions that have arisen at the conference to those who are most interested in the negotiations and that when he returns to America he will find good reasons for not going back to Europe.

Few investigations turn up very much of a really sensational character. It is not often that any great legislative act is hung upon a congressional investigation. At the present time there are investigations going on in a dozen different rooms at the capitol, and while once in a while something of importance crops out there is no great discovery such as the in-

surance investigation brought out in the city of New York. All interest has been lost in the German propaganda investigation, and the same may be said of the investigation as to the work of the National Security League in regard to electing or defeating members of congress. But there will be investigations as long as there is a congress, and one in a while some pretty big thing will no doubt be turned up which will be considered a real sensation.

Magazines and newspapers for men who have been in the service during the war are being established with great rapidity these days. Many separate branches of the service have periodicals which cater to the men who served in those branches, which look after the interests of soldiers and sailors generally with particular attention to those who served in the branch for which the periodical is gotten out. The tank corps has a monthly; the air service issues a publication; there are any number of newspapers published at hospitals of the army in an effort to help wounded and maimed soldiers become self-supporting. Publications of this sort have a field of something like three million men who are interested in such questions, and some of them are sure to become very powerful factors in expressing the opinions and working for the interests of our veterans of 1918.

Whenever Martin Dies gets into a debate he says something interesting. The Texan is serving his last few weeks as a congressman, but he is as good as ever. He had this to say about the conditions in Russia: "They have more liberty in socialist Russia today than they know what to do with. (Laughter and applause.) A man can absolutely yell at the top of his voice in a meeting house; he can shoot, he can do anything on earth except to retire to his home castle and say, 'This is my citadel and I and my wife and children are safe.' He cannot do that. He can do anything on earth except to make a crop with the assurance that he can gather his own crop. He has all the liberty that a wild ass of the prairie has (laughter and applause), without the mule's security." (Laughter.)

Congressman Walsh of Massachusetts is very precise in his statements, whether it be putting a question on the floor of the house, in committee, or making an assertion of his views. He is very careful in the choice of words, and is able to make a long and complicated statement and keep it within the bounds as to scope and meaning. A lot of men who undertake to propound a hypothetical question or make a complicated statement often get tangled, but Walsh is precision itself on such occasions.
